The Literary Digest International Book Review Clifford Smyth, 1924 The Spectator Insurance Year Book , 1926 Conspiracy Theories and the People who Believe Them Joseph E. Uscinski, 2019

Conspiracy theories are inevitable in complex human societies And while they have always been with us their ubiquity in our political discourse is nearly unprecedented Their salience has increased for a variety of reasons including the increasing access to information among ordinary people a pervasive sense of powerlessness among those same people and a widespread distrust of elites Working in combination these

factors and many other factors are now propelling conspiracy theories into our public sphere on a vast scale In recent years scholars have begun to study this genuinely important phenomenon in a concerted way In *Conspiracy Theories and the People Who Believe Them* Joseph E Uscinski has gathered forty top researchers on the topic to provide both the foundational tools and the evidence to better understand conspiracy theories in the United States and around the world Each chapter is informed by three core questions Why do so many people believe in conspiracy theories What are the effects of such theories when they take hold in the public What can or should be done about the phenomenon Combining systematic analysis and cutting edge empirical research this volume will help us better understand an extremely important yet relatively neglected phenomenon

Cohen,2023-01-30 Across the social sciences and even in philosophy trust is most often characterized in terms of expectations and probabilities This book defends an alternative conception of trust as a moral phenomenon When one person trusts another to do something the first relies on the second s commitment s So trust reflects and is a product of agreement about the commitments and obligations that bind persons who live and work together These commitments and obligations can be implicit but building or rebuilding trust often requires making these commitments and obligations explicit defining the terms of cooperation Part 1 argues that this account of trust better captures our actual trust practices and it draws out connections with both the philosophy and the social science literatures It also describes the process of creating trust relationships with reference to trust invitations Part 2 addresses practical applications of the account defended here in the context of social relationships economic systems and within business organizations These applications emphasize the material benefits of trust but separate from those Part 2 argues that trust is an intrinsic good so we have moral reason to trust The Nature and Practice of Trust will appeal to scholars and advanced students working in ethics social and political philosophy and the social sciences Chapter 6 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license [Out of Time \(Lovers in Time Series, Book 1\)](#) Marilyn Campbell,2017-03-09 For anyone who loves romantic suspense and time travel you re in for a thrilling ride Siren Book Reviews Convicted Murderer Transports From Electric Chair in 1965 to Suspense Author s Hideaway in 2016 in Marilyn Campbell s Paranormal Time Travel Romance OUT OF TIME 1965 to 2016 In 1965 Atlanta Jack Templeton is strapped in the electric chair about to be executed for murder when he spontaneously combusts In 2016 Kelly Kirkwood is researching the supernatural twist surrounding Jack s case when he abruptly appears before her in the flesh Shocked and unsure how long Jack will remain the pair race against time to clear Jack s name as lust and then love takes hold But the true villains are stalking their every move willing to do anything to keep the past a secret Publisher s Note Readers who enjoy romance sex and mystery as well as fans of Callie Langridge Bethany Claire Gillian Doyle and Barbara Longley will certainly enjoy Marilyn Campbell s fun romp through time A page turner all the way Manic Readers Reviews THE LOVERS IN TIME SERIES in order Out of Time Just in Time Some Time Away It s About Time THE INNERWORLD AFFAIRS SERIES in order Romulus Falcon Gallant Gabriel Logan Roman Blaze MARILYN CAMPBELL has been published in the genres of suspense futuristic time travel paranormal erotic and lighthearted contemporary romances non fiction metaphysical works and has had a screenplay
