2488 Portastudio™

24-track, 24-bit, 36-channel Digital Portastudio with capacious hard drive, powerful signal processing and built-in CD-RW drive

Way way back in 1979, when we introduced the first 4-track cassette tape Portastudio, we were also helping set the professional audio industry standard for recording tracks: **twenty-four.**

Like the Portastudio, 24 recording tracks caught on, becoming the primary creative tool for artists and producers worldwide. Was then. Still is. Only now everyone can have access to that magic number of tracks.

Twenty-five years after the first Portastudio comes the incredible **2488**. It's by far the most affordable 24-track recording and mixing workstation ever made for home studios — and the only model within three times its price range that can truly run 24 tracks at 24-bits/ 44.1kHz.

Eight inputs can be simultaneously recorded into the XLR and 1/4" inputs. Twenty physical faders control the mixdown channels; each channel has 3-band EQ and access to three built-in effects processors.

40GB internal hard disk gives the user ample space for twenty to thirty* 24-track songs and virtual tracks for comping. Plus the 2488 has a USB 2.0 port for back-up via home computer.

continued on the other side ►

- 24-track / 24-bit recorder (44.1kHz)
- 36-channel mixer
- 3-band EQ on 24 channels, 8-inputs, tone generator and stereo bus with high and low sweepable shelving bands and full parametric mid band
- Three aux sends on all channels except the effects return
- Loop effect provides reverb, delay, chorus and more on an aux send and return
- Assignable Guitar multi-effects processor for distortion, chorus, delay, flange and more
- Up to eight assignable dynamics processors for compression during recording or mixdown
- Dedicated Stereo Compressor on the stereo output
- Eight inputs: 4 XLR with phantom power double as 1/4" mic/line inputs, plus four dedicated 1/4" mic/line inputs
- Twenty 45mm faders including master fader
- LCD display for viewing meters and edit parameters
- CD-RW drive to record Red Book CDs, import/export WAV files and backup hard drive
- 64-voice General MIDI sound module
- Standard MIDI File player
- High-speed USB 2.0 jack connects to PC or Mac® for data backup and SMF/WAV file transfer

¹ Okay technically this 24-track recorder is circularly but you get the point.

² Reasonable estimate. Four mileage may vary depending on the length of your songs and the number of virtual tracks.
