

TASC Test Math Practice Items

TASC Test Math Practice Items

Use these items to practice for the TASC Math sub test. Before you begin, review the information below titled Using Gridded-Response Item Blocks. Once you reach the end of the test, check your responses against the answer key provided. Take the time to read the information preceding the answers to understand what you'll need to know and be able to do to prepare yourself to pass the TASC test. In the following multiple-choice questions, circle the correct answer then check your answers using the answer key provided.

Good luck preparing for the TASC test!

Using Gridded-Response Item Blocks

The Mathematics section of the TASC test contains both multiple-choice items and gridded-response items. Gridded-response items ask for a numerical answer that may be an integer, a decimal, or a fractional value. The grid consists of bubbles containing the integers 0 through 9, the fraction bar ($\frac{\quad}{\quad}$), and a decimal point (.). When you enter a numerical value into the grid, you will then shade the appropriate bubbles beneath the numbers and symbols.

The numbers may be entered from either the right or the left. The scoring software will treat them the same either way. For example, if you had an item with an answer of 43.8, either of the following responses would be scored as correct.
