Professionals to Respond to Family Violence, 2002-04-04 As many as 20 to 25 percent of American adults or one in every four people have been victimized by witnesses of or perpetrators of family violence in their lifetimes Family violence affects more people than cancer yet it's an issue that receives far less attention Surprisingly many assume that health professionals are deliberately turning a blind eye to this traumatic social problem The fact is very little is being done to educate health professionals about family violence Health professionals are often the first to encounter victims of abuse and neglect and therefore they play a critical role in ensuring that victims as well as perpetrators get the help they need Yet despite their critical role studies continue to describe a lack of education for health professionals about how to identify and treat family violence And those that have been trained often say that despite their education they feel ill equipped or lack support from by their employers to deal with a family violence victim sometimes resulting in a failure to screen for abuse during a clinical encounter Equally problematic the few curricula in existence often lack systematic and rigorous evaluation This makes it

difficult to say whether or not the existing curricula even works Confronting Chronic Neglect offers recommendations such as creating education and research centers that would help raise awareness of the problem on all levels In addition it recommends ways to involve health care professionals in taking some responsibility for responding to this difficult and devastating issue Perhaps even more importantly Confronting Chronic Neglect encourages society as a whole to share responsibility Health professionals alone cannot solve this complex problem Responding to victims of family violence and ultimately preventing its occurrence is a societal responsibility *Oski's Pediatric Certification and Recertification Board Review* Carmen Coombs,Arethusa Stevens Kirk,2011-12-21 Oski s Pediatric Certification and Recertification Board Review provides comprehensive coverage of all of the areas focused on in the board exam Features include more than 300 board style review questions a full color design and illustrations and numerous Points to Remember
