The New Oxford Shakespeare: Critical Reference Edition William Shakespeare, 2017-03-30 The New Oxford Shakespeare is a landmark print and online project which for the first time provides fully edited and annotated texts of all extant versions of all Shakespeare s works including collaborations revisions and adaptations Based on a fresh examination of the surviving original documents it draws upon the latest interdisciplinary scholarship supplemented by new research undertaken by a diverse international team Although closely connected and systematically cross referenced each part can be used independently of the others The New Oxford Shakespeare The Complete Works Critical Reference Edition collects the same versions of the same works found in the Modern Critical Edition keyed to the same line numbering But the Critical

Reference Edition emphasizes book history and the documentary origins of each text. It preserves the spelling, punctuation, capitalization, abbreviations, typographical contrasts, ambiguities, and inconsistencies of the early documents. Introductions focus on early modern manuscript and print culture, setting each text within the material circumstances of its production, transmission, and early reception. The works are arranged in the chronological order of the surviving texts: the first volume covers documents manufactured in Shakespeare's lifetime, and the second covers documents made between 1622 and 1728. The illustrated general introduction presents an overview of the texts available to editors and describes how they define Shakespeare. An essay on error surveys kinds of error characteristic of these early text technologies. It is followed by a general introduction to the music of Shakespeare's plays, introductions to individual works, and an extensive foot of the page textual apparatus record and discuss editorial corrections of scribal and printing errors in the early documents; marginal notes record press variants and key variants in different documents. Original music notation is provided for the songs where available. Because the plays were written and copied within the framework of theatrical requirements, casting charts identify the length and type of each role, discuss potential doubling possibilities, and note essential props. The New Oxford Shakespeare consists of four interconnected publications: the Modern Critical Edition with modern spelling; the Critical Reference Edition with original spelling; a companion volume on Authorship; and an online version integrating all of this material on OUP's high-powered scholarly editions platform. Together they provide the perfect resource for the future of Shakespeare studies.

**Between Memory and Power** Antoine Borrut, 2023-07-17. *Between Memory and Power* intends to demonstrate that a robust culture of historical writing existed in 2nd-8th century Syria and to offer new methodological approaches to access this now lost history torn between memory and oblivion. By studying the making of Umayyad heroes or Abbasid origins myths, this book aims to reveal the successive meanings granted to Syrian history and to identify the various layers of historical writing and rewriting during the first centuries of Islam. Taken together, these elements make possible a history of meanings of the very space of Syria articulated around power and its expression, which grants a clear coherence to the period extending well beyond the dynastic caesura of 132-750.

**Ukraine's Quest for Identity** Maria G. Rewakowicz, 2017-10-18. Winner of the 2019 Omeljan Pritsak Book Prize in Ukrainian Studies, *Ukraine's Quest for Identity: Embracing Cultural Hybridity in Literary Imagination, 1991-2011* is the first study that looks at the literary process in post-independence Ukraine comprehensively and attempts to draw the connection between literary production and identity construction. In its quest for identity, Ukraine has followed a path similar to other postcolonial societies, the main characteristics of which include a slow transition, hybridity, and identities negotiated on the center-periphery axis. This monograph concentrates on major works of literature produced during the first two decades of independence and places them against the background of clearly identifiable contexts such as regionalism, gender issues, language politics, social ills, and popular culture. It also shows that Ukrainian literary politics of that period privileges the plurality and hybridity of

national and cultural identities By engaging postcolonial discourse and insisting that literary production is socially instituted Maria G Rewakowicz explores the reasons behind the tendency toward cultural hybridity and plural identities in literary imagination Ukraine's Quest for Identity will appeal to all those keen to study cultural social and political ramifications of the collapse of the Soviet empire in Eastern Europe and beyond

### **Translation and Linguistic Hybridity**

Susanne Klinger, 2014-12-05 This volume outlines a new approach to the study of linguistic hybridity and its translation in cross cultural writing By building on concepts from narratology cognitive poetics stylistics and film studies it explores how linguistic hybridity contributes to the reader's construction of the textual agents world view and how it can be exploited in order to encourage the reader to empathise with one world view rather than another and consequently how translation shifts in linguistic hybridity can affect the world view that the reader constructs Linguistic hybridity is a hallmark of cross cultural texts such as postcolonial migrant and travel writing as source and target language come into contact not only during the process of writing these texts but also often in the fictional or non fictional story world Hence translation is frequently not only the medium but also the object of representation By focussing on the relation between medium and object of representation the book complements existing research that so far has neglected this aspect The book thus not only contributes to current scholarly debates within and beyond the discipline of translation studies concerned with cross cultural writing and linguistic hybridity but also adds to the growing body of translation studies research concerned with questions of voice and point of view
