Junior Graphic Mavis Kitcher (Mrs), 2010-01-20 **The Mirror** Margaret Safo (Mrs.), 2005-12-03 **Educational Assessment in a Time of Reform** Coert Loock, Vanessa Scherman, 2019-11-20

Educational Assessment in a Time of Reform provides background information on large scale examination systems more generally and the South African examination specifically. It traces the reforms in the education system of South Africa since 1994 and provides a description of the advances in modern test theory that could be considered for future standard setting endeavours. At the heart of the book is the debate on whether the current standard of education in Africa is good enough. If not then how can it be improved. The aim of this book is to provide a point of departure for discussions on standard setting, quality assurance, equating of examinations and assessment approaches. From this point of departure, recommendations for practices in general and the exit level Grade 12 examination results in particular can be made. This book is ideal reading for principals, teachers, academics and researchers in the fields of educational assessment, measurement and evaluation.

Football and Migration Richard Elliott, John Harris, 2014-09-19

Football and Migration is an incredibly powerful case study of globalization and an extremely useful lens through which to study and understand contemporary processes of international migration. This is the first book to focus on the increasingly complex series of migratory processes that contour the contemporary game, drawing on multi-disciplinary approaches from sociology, history, geography and anthropology to explore migration in football in established, emerging and transitional contexts. The book examines shifting migration patterns over time and across space and analyses the sociological dynamics that drive and influence those patterns. It presents in depth case studies of migration in elite men's football, exploring the role of established leagues in Europe and South America as well as important emerging leagues on football's frontier in North America and Asia. The final section of the book analyses the movement of groups who have rarely been the focus of migration research before, including female professional players, elite youth players, amateur players and players' families, drawing on important new research in Ghana, England, Haiti and the Dominican Republic. Few other sports have such a global reach and therefore few other sports are such an important location for cross-cultural research and insight across the social sciences. This book is engaging reading for any student or scholar with an interest in sport, sociology, human geography, migration, international labour flows, globalization, development or post-colonial studies.
