Medicine W.H.G. Goethe, E.N. Watson, D.T. Jones, 2012-12-06 International cooperation on the health of seafarers began many years ago As early as 1921 an international convention regarding this matter was presented to governments of maritime countries for ratification The First World Health Assembly in 1948 recommended that WHO should establish with the International Labour Office a Joint Committee on the hygiene of seafarers The first session of this Committee held in 1949 defined the problems affecting the health of seamen and made a number of recommendations In the opinion of this Joint Committee the health of seamen called for international attention for a number of reasons By the nature of his work the seafarer is obliged to travel from country to country and is exposed to great variations of climate and also to any disease

that may be prevalent in the port of call He may there fore become a carrier of disease so that the protection of his health is of importance not only to himself and the other members of the crew but also to the populations of other countries he visits Yet on account of the nature of his employment it is difficult to provide the seafarer with the same standard of health care that is generally available to other sections of the population **Solved Papers (2023-24 RRB ALP ITI Electrical Trade)** YCT Expert Team , 2023 24 RRB ALP ITI Electrical Trade Solved Papers **The Hospitals Year Book** ,1966
