World History Textbook Florida:

The New Politics of the Textbook Heather Hickman, Brad J. Porfilio, 2012-10-13 In an age of unprecedented corporate and political control over life inside of educational institutions this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in K 16 schools to perpetuate their interests at the expense of minoritized social groups The contributors provide a comprehensive examination of how textbooks the most dominant cultural force in which corporations and political leaders impact the schooling curricula shape students thoughts and behavior perpetuate power in dominant groups and trivialize social groups who are oppressed on the structural axes of race class gender sexuality and disability Several contributors also generate critical insight in how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant Western narratives that normalize and privilege patriotism militarism consumerism White supremacy heterosexism rugged individualism technology and a positivistic conception of the world Finally the book highlights several textbooks that challenge readers to rethink their stereotypical views of the Other to reflect upon the constitutive forces causing oppression in schools and in the wider society and to reflect upon how to challenge corporate and political dominance over knowledge production **God Less America** Todd

Starnes, 2014-05-06 Pay attention people of faith Dark clouds are gathering The winds of intolerance are blowing There s a great storm approaching American Christians are facing uncertain times Our nation s values are under assault Religious liberty has been undermined We live in a day when right is now wrong and wrong is now right The vicious leftwing attack against the recent traditional marriage stance of Chick fil A should serve as a wakeup call to people of faith It s not about a chicken sandwich It s about religious liberty It s about free speech It s about the future of our nation As a reporter covering the culture war for FOX News Todd Starnes is on the front lines of these attacks against traditional values In God Less America he uses both recent news stories and compelling interviews with today s top conservative leaders to bring to light what is happening across our country In his award winning satire meets serious writing style he strikes an important blow in today s culture wars *Florida World History* Elisabeth Gaynor Ellis, Anthony Esler, 2013 **Primary Sources in World**

History James Farr, Patrick J. Hearden, 2023-03-13 This two volume collection of primary documents covers societies across different geographical regions during the last 5 000 years While chronologically and geographically comprehensive in scope this reader will focus on a central theme the unequal allocation of wealth and power both within individual societies and between different polities ranging from small city states to large territorial empires The selected documents reveal that people living at different times and in different places have used similar methods to achieve similar political and economic objectives By reflecting uniformities as well as diversities in ideas and actions these documents undermine assertions of Western intellectual cultural or moral superiority *Hollywood or History?* Scott L. Roberts, Charles J. Elfer, 2021-01-01 The challenges of teaching history are acute where we consider the world history classroom Generalized world history courses

are a part of many if not most K 12 curricular frameworks in the United States While United States history tends to dominate the scholarship and conversation there are an equally wide number of middle level and secondary students and teachers engaged in the study of world history in our public schools And the challenges are real In the first place if we are to mark content coverage as a curricular obstacle in the history classroom generally then we must underscore that concern in the world history classroom and for obvious reasons The curricular terrain to choose from is immense and forever expanding dealing with the development of numerous civilizations over millennia and across a wide geographic expanse In addition to curricular concerns world historical topics are inherently farther away from most students lives not just temporally but often geographically and culturally Thus the rationale for the present text Hollywood or History An Inquiry Based Strategy for Using Film to Teach World History The reviews of the first volume Hollywood or History An Inquiry Based Strategy for Using Film to Teach United States History strategy have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioner Classroom utility and teacher practice have remained our primary objectives in developing the Hollywood or History strategy and we are encouraged by the possibilities of Volume II and the capacity of this most recent text to impact teaching and learning in world history We believe that students connection to film along with teachers ability to use film in an effective manner will help alleviate some of the challenges of teaching world history The book provides 30 secondary lesson plans grades 6 12 that address nine eras in world history

easy with a curated collection of primary sources speeches by presidents and protesters Supreme Court cases political cartoons excerpted into manageable chunks for students Challenges the master narrative of U S history with texts from Frederick Douglass Susan B Anthony Malcolm X Cesar Chavez Jeanne Wakatsuki Houston and Judy Heumann Offers printable copies of the documents included in the book which can be downloaded at tcpress.com *War, Nation, Memory* Keith A. Crawford, Stuart J. Foster, 2007-12-01 The Second World War stands as the most devastating and destructive global conflict in human history More than 60 nations representing 1.7 billion people or three quarters of the world's population were consumed by its horror Not surprisingly therefore World War II stands as a landmark episode in history education throughout the world and its prominent place in school history textbooks is almost guaranteed As this book demonstrates however the stories that nations choose to tell their young about World War II do not represent a universally accepted truth about events during the war Rather wartime narratives contained in school textbooks typically are selected to instill in the young a sense of national pride common identity and shared collective memory To understand this process *War Nation Memory* describes and evaluates school history textbooks from many nations deeply affected by World War II including China France Germany Japan USA and the United Kingdom It critically examines the very different and complex perspectives offered in many nations and analyses the ways in which textbooks commonly serve as instruments of socialisation and in some cases propaganda Above all *War Nation Memory* demonstrates that far from containing neutral knowledge history textbooks prove fascinating cultural artefacts consciously shaped and legitimated by powerful ideological cultural and sociopolitical forces dominant in the present [Marking the "Invisible"](#) Andrea M. Jones,2008-07-30 Advocates of religious schooling have frequently had to answer the charge that what they supported was un American In a book that is more than just a history Jones tries to make sense of that charge by tracing the development of religious schooling in America over the last 125 years He explores the rationale for religious schooling on the part of those who choose it for their children and in terms of its impact on communities and he considers the arguments of those who criticize such schools for undermining efforts to promote national unity The book focuses on the gradual embrace of sectarian schooling by different religious communities in America particularly Catholics Jews and later conservative Protestants mainly in the form of homeschooling It also considers Muslim schools not currently a force in private schooling or the subject of much debate but perhaps next in line to make their case for a place in America s educational landscape Near the end of the 19th century publicly financed publicly administered schooling emerged as the default educational arrangement for American children But this supremacy has not gone unchallenged The sectarian schools that in fact predate public education in America have survived even thrived over the past century Multiple religious communities including those that opposed sectarian schooling in earlier generations have now embraced it for their children **Modern World History for Edexcel Specification A.** Nigel Kelly,2001 This student book is a foundation edition of the syllabus specific text for GCSE Modern World History for Edexcel This text provides a simplified version of the core textbook and is targeting students expecting to gain C to G grades
