shows how representations and responses have been conditioned by national and political trends and constraints As historical background to the issues of postwar collective memory and public discourse it includes references to and short descriptions of major manifestations of collaboration chiefly in regards to the Jews in each of these countries during the war Whether they were Communist or democratic regimes the book shows how the sudden burden of the past was suppressed denied or distorted in various periods Covering a wide area of both Eastern and Western Europe from different specialist perspectives this comprehensive study of collaboration in the Holocaust and its aftermath will be a valuable tool for teachers and students in the field of modern European history and Holocaust studies *Gas World*, 1924 **Masters of Death** Richard Rhodes, 2007-12-18 In *Masters of Death* Pulitzer Prize winning author Rhodes gives full weight for the first time to the Einsatzgruppen's role in the Holocaust These special task forces organized by Heinrich Himmler to follow the German army as it advanced into eastern Poland and Russia were the agents of the first phase of the Final Solution They murdered more than 1.5 million men, women and children between 1941 and 1943 often by shooting them into killing pits as at Babi Yar These massive crimes have been generally overlooked or underestimated by Holocaust historians who have focused on the gas chambers In this painstaking account Pulitzer Prize winning author Richard Rhodes profiles the eastern campaign's architects as well as its ordinary soldiers and policemen and helps us understand how such men were conditioned to carry out mass murder Marshaling a vast array of documents and the testimony of perpetrators and survivors this book is an essential contribution to our understanding of the Holocaust and World War II **In the Museum of Man** Alice L. Conklin, 2013-10-15 *In the Museum of Man* offers new insight into the thorny relationship between science, society and empire at the high water mark of French imperialism and European racism Alice L. Conklin takes us into the formative years of French anthropology and social theory between 1850 and 1900 then deep into the practice of anthropology under the name of ethnology both in Paris and in the empire before and especially after World War I and finally into the fate of the discipline and its practitioners under the German Occupation and its immediate aftermath Conklin addresses the influence exerted by academic networks, museum collections and imperial connections in defining human diversity socioculturally rather than biologically especially in the wake of resurgent anti-Semitism at the time of the Dreyfus Affair and in the 1930s and 1940s Students of the progressive social scientist Marcel Mauss were exposed to the ravages of imperialism in the French colonies where they did fieldwork as a result they began to challenge both colonialism and the scientific racism that provided its intellectual justification Indeed a number of them were killed in the Resistance fighting for the humanist values they had learned from their teachers and in the field A riveting story of a close knit community of scholars who came to see all societies as equally complex *In the Museum of Man* serves as a reminder that if scientific expertise once authorized racism anthropologists also learned to rethink their paradigms and mobilize against racial prejudice a lesson well worth remembering today Resettlement as Protection Marjoleine Zieck, 2024-09-06 This timely book focuses on one of the so

called durable solutions to the problem of refugees that UNHCR has been charged to pursue resettlement Resettlement consists of the transfer of refugees from their country of asylum to another state in case of severe protection problems in the country of asylum States are not obliged to offer resettlement places and in practice that means that resettlement is run as a discretionary immigration scheme This book attempts to integrate resettlement in international refugee law Selected Executive Session Hearings of the Committee, 1943-50 ... Global Easts Jie-Hyun Lim, 2022-07-05 South Korean historian Jie Hyun Lim raised under an anticommunist dictatorship turned to Marxian thought to explain his country's development even as he came to struggle with its Eurocentrism As a transnational scholar working in postcommunist Poland Lim recognized striking similarities between Korean and Polish history and politics One realization stood out Both Korea and Poland at once the West for Asia yet Eastern Europe had been assigned the role of East This book explores entangled Easts to reconsider global history from the margins Examining the politics of history and memory Lim reveals the affinities linking Eastern Europe and East Asia He draws out commonalities in their experiences of modernity in their transitions from dictatorship to democracy and in the shaping of collective memory Ranging across Poland Germany Israel Japan and Korea Lim traces the global history of how notions of victimhood have become central to nationalism He criticizes mass dictatorships of right and left in the Global Easts considering Nazi jurist Carl Schmitt's notion of sovereign dictatorship and the concept of decisionist democracy Lim argues that nationalism is inherently transnational critiquing how the nationalist imagination of the Global East has influenced countries across borders Theoretically sophisticated and conceptually innovative this book sheds new light on the transnational complexity of historical memory and imagination the boundaries between democracy and mass dictatorship and the fluidity of East and West

Final Solution David Cesarani, 2016-11-08 This groundbreaking history of the Holocaust presents a brilliant synthesis and interpretation of the greatest crime of the modern era harrowing and extraordinary The Times UK David Cesarani's *Final Solution* is a magisterial work of history that chronicles the fate of Europe's Jews during and directly after World War II Based on decades of scholarship documentation newly available from the opening of Soviet archives declassification of Western intelligence service records as well as diaries and reports written in the camps Cesarani provides a sweeping reappraisal that challenges accepted explanations for the anti-Jewish politics of Nazi Germany and the inevitability of the final solution The persecution of the Jews as Cesarani demonstrates was not always the Nazis' central preoccupation nor was it inevitable Instead it unfolded erratically in German occupied countries often due to local initiatives Military failures created a crisis of resources that led to the starvation of the ghettos and intensified anti-Jewish measures Cesarani also disputes the iconic role of railways and deportation trains and exposes the extent of sexual violence and abuse of Jewish women In bracingly vivid prose *Final Solution* captures the experience of a heroic people caught in the hell that was Hitler's Germany

Insights Into Teachers' Thinking And Practice Christopher Day, Maureen Pope, Pam

Denicolo,2013-02-01 A collection of original research conducted by scholars from Europe and North America The papers consider the evolution of research on teachers thinking the nature of professional knowledge and philosophical and moral dimensions of teachers thinking **The Great Financial Crisis in Finland and Sweden** Lars Jonung,Jaakko Kiander,Pentti Vartia,2009-01-01 The Nordic financial crisis had it all a botched liberalization a huge boom followed by an even bigger bust massive taxpayer financed bailouts and finally deep long run gains The first class team of scholars mobilized in this book convincingly tell a story that should be carefully studied by economists bankers and policymakers After this book no one should be able to say If we only knew Charles Wyplosz Graduate Institute of International Studies Geneva Switzerland The financial crisis in Scandinavia in the early 1990s was a forerunner of the later world wide crisis in 2007 8 Although the initial causation was different the impact on their banks though more localised was just as severe So we can benefit and already policymakers have done so from learning the lessons in this book on how to restore shattered banking systems to health For this we owe a debt of gratitude to the editors who have put together a series of key papers that emerged from a much larger exercise on the crisis that was earlier reported in four volumes in Swedish and Finnish Amongst the many studies on current and past financial crises this is a classic must read Charles A E Goodhart London School of Economics UK The Nordic experience with financial crisis resolution could not be more timely Everyone cites it as an example of how it should be done but rarely does one find careful and detailed analysis Now policymakers and others searching for guidance will know where to look Barry Eichengreen University of California Berkeley US Following World War II Nordic countries were commonly regarded as successful and stable economies This perception was however shattered in the early 1990s when Finland and Sweden encountered severe financial crises Here the authors explore the symptoms of financial crisis decreasing real income soaring unemployment and exploding public deficits and their devastating effects The book compares and contrasts the experiences of Finland and Sweden then adopts an international perspective encompassing the experiences of Asia Latin America Denmark and Norway Lessons from the 1990s crisis are drawn and possible solutions prescribed The conclusion is that long term effects of financial crises financial liberalization and integration are not as dramatic as the short term effects but may prove to be of greater importance over time Only the future will show whether these long term benefits will balance or even outweigh the enormous short term costs of the crises Highly relevant to the current international financial crisis currently afflicting the world economy this timely book will prove invaluable to economists and other social scientists with a general interest in financial crises and to those with a more specific interest in the evolution and models of Scandinavian economies *Austria in the European Union* Anton Pelinka,2017-09-08 Austria joined the European Union in 1995 with the overwhelming support of its citizenry In June 1994 a record 66 6 percent of the Austrian population voted in favor of joining the Union and Austria acceded on January 1 1995 Only three years later in the second half of 1998 Austria assumed its first presidency of the European Union Its competent conduct of the Union s business enhanced its reputation

The sense that Austria was a role model collapsed overnight after a new conservative People's Party iVP FPi coalition government was formed in Austria in early February 2000 Austria became Europe's nightmare This volume has two purposes The first is to assess Austria's first five years in the European Union The second is Austria's ongoing struggle with its past Heinrich Neisser evaluates and assesses Austria's commitment to the European Union Thomas Angerer offers a long term perspective of regionalization and globalization trends in Austrian foreign affairs Waldemar Hummer analyzes contradictions between Austrian neutrality and Europe's emerging common security policy Johannes Pollak and Sonja Puntischer Rieckmann look at current debates over weighing future voting rights in the European Commission Michael Huelshoff evaluates Austria's EU presidency in 1998 and compares it to the subsequent 1999 German presidency Gerda Falkner examines the withering away of the previously much admired Austrian welfare state Walter Manoschek scrutinizes the Nazi roots of Jörg Haider's Freedom Party Michael Gehler critiques the EU sanctions and bemoans the absence of mediation through transnational Christian conservative parties In reviewing how Austria deals with World War II Richard Mitten investigates discourses on victimhood in postwar Austria and the place of Jews in this process A Roundtable presents overwhelming evidence of Austrians' deep involvement in Nazi war crimes and includes articles by Sabine Loitfellner and Winfried Garscha This addition to the Contemporary Austrian Studies series will be welcomed by political scientists historians and legal scholars particularly those with a strong interest in European affairs
