Wortmeldungen German Edition:

Gefährliche Nähe [German-language Edition] Michail Logvinov, Klaus Hummel, 2014-03-01 Salafism and jihadism are an important focus of inner German security discussions The Salafi proselytizing is more successful than ever and the jihad in Afghanistan or Syria pulls Islamists from Germany This collection offers an examination of currently virulent phenomena of Salafism and jihadism from different perspectives It is sometimes claimed that either Islam and violence or religion and terror go hand in hand the authors of this volume aim to show that this is not so Using the methods of social science to determine whether and under what conditions such a dangerous proximity comes about this book offers insight into which actors are being looked for by extremists to exploit and to use as self fulfilling prophecies To this end the authors develop innovative analytical concepts Among other things a process of co radicalization and an attitude based approach to the study of Salafist networks are described The book makes an important contribution to the current debate by not presenting the potentially dangerous proximity of Islam and violence as a social fact but describes it as a factor that can be influenced and understood Salafismus und Dschihadismus stehen im Mittelpunkt innerdeutscher Sicherheitsdiskussionen Die salafistische Missionierung ist erfolgreich wie nie zuvor und der Dschihad in Afghanistan oder Syrien zieht die Islamisten aus Deutschland an Der vorliegende Sammelband beleuchtet aus unterschiedlichen Perspektiven die derzeit virulenten Phänomene des Salafismus und Dschihadismus Weder soll damit plakativ eine Nähe von Islam und Gewalt Religion und Terror behauptet noch eine solche pauschal geleugnet werden Vielmehr wird mit sozialwissenschaftlichen Methoden erklärt ob und unter welchen Bedingungen eine solche gefährliche Nähe zustande kommt welche Akteure sie suchen instrumentalisieren oder sie zur sich selbst erfüllenden Prophezeiung werden lassen Zu diesem Zweck entwickeln die Autoren innovative Analysekonzepte Unter anderem werden ein Prozess der Co Radikalisierung und ein attitudebasierter Ansatz zur Untersuchung salafistischer Netzwerke beschrieben Der Band leistet einen wichtigen Beitrag zur aktuellen Diskussion indem er die gefährliche potentielle Nähe von Islam und Gewalt nicht etwa als soziales Faktum präsentiert sondern als beeinflussbare Größe beschreibt und verständlich macht

Dimensions of Storytelling in German Literature and Beyond Jennifer William, Kristy R. Boney, 2018 Explores the storytelling of Anna Seghers and other 20th century writers who faced the tensions between aesthetics and politically conscious writing between conformity and resistance While Walter Benjamin in his famous essay *The Storyteller* 1936 lamented the decline of the storytelling tradition in the age of the modernist novel Anna Seghers and other twentieth century

German writers went on to chronicle the century's darkest days in creative and compelling ways. This volume is at its heart a tribute to Germanist Helen Fehervary whose work particularly on the prose of Anna Seghers continues to inspire scholars who examine narration and storytelling. The subtitle quotation for once telling it all from the beginning is a translation of the phrase *einmal alles von Anfang an erzhlen* from Seghers's exile novel *Transit* in which she told not only her own story but that of countless others who faced existential challenges in their attempts to escape the Nazi regime. This volume examines a number of such writers exploring the tensions between aesthetics and politically conscious writing as well as individual struggles involving conformity and resistance in a totalitarian state. Contributors: Peter Beicken, Hunter Bivens, Kristy R. Boney, Ute Brandes, Stephen Brockmann, Sylvia Fischer, Jost Hermand, Kristen Hetrick, Robert C. Holub, Weijia Li, Elizabeth Loentz, Michaela Peroutkov, Benjamin Robinson, Christiane Zehl, Romero Marc Silberman, Andy Spencer, Luke Springman, Amy Kepple Strawser, Jennifer Marston. William Kristy R. Boney is Associate Professor of German at the University of Central Missouri. Inequality, Poverty and Precarity in Contemporary American Culture Sieglinde Lemke, 2016-12-09. This book analyzes the discourse generated by pundits, politicians, and artists to examine how poverty and the income gap is framed through specific modes of representation. Set against the dichotomy of the structural narrative of poverty and the opportunity narrative, Lemke's modified concept of precarity reveals new insights into the American situation as well as into the textuality of contemporary demands for equity. Her acute study of a vast range of artistic and journalistic texts brings attention to a mode of representation that is itself precarious both in the modern and etymological sense, denoting both insecurity and entreaty. With the keen eye of a cultural studies scholar, her innovative book makes a necessary contribution to academic and popular critiques of the social effects of neoliberal capitalism.

The German-speaking Countries of Europe Margrit Beran Krewson, 1989. ***Australian Literature in the German Democratic Republic*** Nicole Moore, Christina Spittel, 2016-06-19.

An account of fraught and complex cross-cultural literary exchange between two highly distinct, even uniquely opposed reading contexts. *Australian Literature in the German Democratic Republic* has resonance for all newly global reckonings of the cultural Cold War. Working from the extraordinary records of the East German publishing and censorship regime, the authors materially track the production and reception of one country's corpus as envisioned by another. The 90 Australian titles published in the GDR form an alternative canon revealing a shadowy literary archive that rewrites Australia's postwar cultural history from behind the iron curtain and illuminates multiple ironies for the GDR as a reading nation. This book brings together leading German and Australian scholars in the fields of book history, German and Australian cultural history, Australian and postcolonial literatures, and postcolonial and cross-cultural theory with emerging writers currently navigating between the two cultures.

Contemporary German Fiction Writers Wolfgang Iser, James N. Hardin, 1988. Essays on West German, East German, and Swiss German authors who experienced Nazi rule and World War II as adults. Entries examine

these writers coming to terms with the experience of fascism and how they were often the conscience of a society that was inclined to forget its recent past. The lives and works of these writers provide an insight not only into German literature but also into several decades of German history.

The Political Economy of De-liberalization Anna Fill, 2018-11-02. This book explores the politics behind de-liberalization, defined as policy reforms that constrain markets and their underlying mechanisms. By offering a comparative study on the governmental reform strategies and policy choices of Austria, Germany, and Switzerland, it demonstrates that de-liberalization processes are a common reform option for governments. Utilizing a novel dataset on liberalization covering policy reform trajectories in 38 industrialized countries between 1973 and 2013, it shows that governments often draw on strategies of de-liberalization in the fields of social welfare and labor market policy where they can be used as compensation for the electorate in the context of liberalizing reforms. As

such the book makes an important contribution to the field of political economy by capturing the turning of the tide in scholarly and policy attention away from liberalization and towards a re embedding and re regulation of economic activity

Theodor Lessing's Philosophy of History in Its Time Herman Simissen, 2021-05-25 This study the first full length monograph in English on the subject discusses the genesis of Theodor Lessing's philosophy of history as mainly expressed in his books *Geschichte als Sinngebung des Sinnlosen* 1919 and 1927 as well as its philosophical implications Lessing on the one hand vehemently denies that historians can know the past as it actually happened On the other hand and rather surprisingly he emphasizes the exceptional importance of history within a culture because of what he calls its religious function His penetrating analysis of history is remarkably relevant for ongoing debates on the very nature of history

Claus Offe and the Critical Theory of the Capitalist State Jens

Borchert, Stephan Lessenich, 2016-04-28 Back in 1972 German political sociologist Claus Offe published a book on the Structural Problems of Late Capitalism which for almost two decades inspired and stimulated an international and transdisciplinary debate on the role of the state in contemporary capitalism An academic debate which paradoxically began to wane as the issues about which Offe had been writing became even more prominent the Contradictions of the Welfare State the title of a collection of Offe's main contributions to the debate published in English in 1984 and democratic capitalism's reality of the permanent crises of crisis management Since 2008 it has again become a widely shared diagnosis that advanced capitalism is in crisis However there is either scholarly disagreement or more often so mere perplexity when it comes to understanding this crisis and to explaining the prevalent patterns in dealing with it In this volume Jens Borchert and Stephan Lessenich critically combine a reconstruction Claus Offe's approach to state theory with an analysis of the current constellation of democratic capitalism based on that same theory In doing so they expertly argue that his relational approach to state theory is much better equipped analytically to grasp the contradictory dynamics of the financial crisis and its political regulation than competing contributions This is why systematically revisiting the theory of late capitalism is not only of a historical concern but constitutes an essential contribution to a political sociology of our time
