G. Williamson,2023-01-07 What do we truly understand about life spirituality and the human condition In fields like psychology science religion and politics we hear talk of discernment yet who among us wields enough real power to discover the deeper truths for themselves Make no mistake real truth demands real power Anyone can read a book study a subject get a degree or become a scholar and yet none of those things are guaranteed to lead us to truth We might learn a number of facts but somewhere along the way almost without fail we take a softer line and settle into a groove running parallel to someone else s beaten path Caught up in the pressures exerted by our peers the establishment or the socioeconomic controls attempting to hook us into predetermined mindsets we eventually become lulled into a belief that we are learning something new and relevant about how the world works We might even believe we are making a difference In all but the rarest of cases however what we are in fact experiencing is not education or higher learning but indoctrination into a limited and controlled view of the world In politics we lose ourselves to the spirit of party so much so that we are blinded to the humanity being extinguished with every hate filled breath Displaced by the spirit

of party the human spirit becomes shattered on the rocks of hatred dishonesty and the incessant grasp for a power so vile one can never hope to pacify it with decorum or common sense In religion we lose ourselves to dogma a body of doctrines ideals and beliefs that are never to be questioned Penned thousands of years ago by men who if they ever had any real power of spiritual discernment the true meaning of their sacred works has been lost in translation by uninitiated scribes More than that the New Testament Scriptures we have today were stitched together by men far removed from the original authors by hundreds of years Not for the purposes of spiritual growth or to bring us closer to God were these works cobbled together but for power and control I want to know the truth of God I want to understand the meaning of life Our place in the universe and our social economic and political ideologies these are what shape our individual and global perspectives and drive our individual and shared experiences as human beings I want to understand all of it and more I want to know what questions are not being asked what answers are not being challenged and what powers are at work to keep me from knowing the truth This book is part one of that undertaking Death: The Ultimate Awakening Before Last Breath (From Mortality to Immortality) Dr. Neelesh Kumar Maurya, 2025-08-28 This is not just a self help book it s a spiritual odyssey Crafted with reverence and insight this work by Dr Neelesh Kumar Maurya blends autobiography spiritual reflection and scriptural wisdom into one profound narrative It draws upon hundreds of timeless teachings from the Vedas Upanishads Bhagavad Gita Garuda Purana and mystic literature offering a panoramic view of life death and the soul s liberation Far beyond common guides to grief or healing this book presents over 60 chapters covering the philosophy of death yogic transitions soul consciousness karma rituals digital legacy and more Each chapter is a distilled reflection of ancient texts and lived spiritual practice Whether you re a seeker student of philosophy or simply contemplating mortality this book offers a rare synthesis of Indian spiritual tradition psychological insight and personal awakening Not just a book a spiritual manual Includes practical tools mantras and meditations Based on hundreds of scriptural summaries Integrates autobiographical experiences of loss and enlightenment Ideal for readers of self realization Vedanta and yogic science Let this book guide your journey from fear to freedom from death to transcendence *Yoga Journal* , 1983-05 For more than 30 years Yoga Journal has been helping readers achieve the balance and well being they seek in their everyday lives With every issue Yoga Journal strives to inform and empower readers to make lifestyle choices that are healthy for their bodies and minds We are dedicated to providing in depth thoughtful editorial on topics such as yoga food nutrition fitness wellness travel and fashion and beauty 700 Conscientiology Experiments Waldo Vieira, 2018-08-22 A reference work on conscientiology this treatise with more than 5 000 entries in the bibliography first published in Portuguese in 1994 presents the reader with the bases of the neoscience conscientiology The author proposes 300 tests for self application dealing with topics of great relevance such as assistance the theory of thosene thought sentiment and energy and the theories of inversion and existential recycling among others The work presents conscientiology as the science applied to the study of consciousness ego personality in an integral approach

with all its vehicles of manifestation bodies previous existences and attributes The content being deepened and presented in a theoretical and practical way so a reader understands the importance of this knowledge to their life The science of conscientiology utilizes the best of the main lines of human knowledge common sense religion philosophy political ideology and conventional science and is based on multidimensional self experience having consciousness as both the instrument and object of research
