The Mindful Classroom Tru Leverette, 2022-02-10 The Mindful Classroom Constructive Conversations on Race Identity and Justice helps teachers and discussion facilitators practice and teach mindfulness and movement techniques that can deeply enhance conversations about race identity and social justice furthering social justice efforts at their most basic stage person to person from the face to face or online classroom to the community at large Mindfulness and movement practices can help us prepare for and engage in difficult conversations and the more conscious we become of our emotional mental and physical landscape the more we are able to engage proactively rather than reactively consciously rather than automatically We become able to act or not act rather than react in situations with others The topics of race and social justice are timely and they are triggers Productive engagement with these topics demands we remain mindful of how we may be triggered and how we may be triggering others it demands we pay attention to ourselves at a fundamental level and it demands that we grant such attention to others

Renew! Shawna Coppola, 2023-10-10 When was the last time you shook up your writing instruction In Renew Become a Better and More Authentic Writing Teacher author Shawna Coppola builds on the premise that our students are ever changing and so is our collective knowledge base Instructional strategies that have worked in the past may need to evolve accordingly Coppola guides K 8 writing teachers with a three part framework for Rethinking Revising and Renewing their approaches and finding new energy along the way Using the framework Renew examines the most pervasive

educational practices in writing instruction and poses questions that guide teachers to revise those practices to ensure they are effective for all students Coppola believes the work is challenging yet critical referencing R Buckminster Fuller s Knowledge Doubling Curve According to Fuller s paradigm the amount of time it takes for us to increase our collective knowledge base by 100 percent will continue to shrink the older we get If this is true or even close to being true show can we as educators ever feel satisfied with teaching our students the same concepts using the same methodologies and practices that we have in the past The book offers a road map for renewing key aspects of our practice including How we teach the writing process Over time and frequent usage some of our favorite teaching strategies can become rigid Coppola gives a candid account of how her enthusiasm for the writing process as an undergraduate led her to teach writing for years as a set of pre determined steps Now she teaches that there are many variations of the writing process and many twists and turns along the path One foundational strategy used is opening up her own process as a writer and her writer s notebooks to students and encouraging them to think and talk about their process with classmates What we mean by Writing Coppola argues that drawing isn t an accompaniment to writing it is writing It s another form of composition through which students can tell stories convey ideas and engage readers The book is full of visual compositions by students as well as Shawna s wonderfully simple and evocative sketches from her writer s notebook The tools we use to teach writing The most ubiquitous tools used to teach writing from anchor charts to graphic organizers to sentence starters etc tend to be teacher centric rather than student centric Renew invites students into the process of constructing tools that are meaningful and helpful to them The book includes a range of examples of tools built collaboratively with students How we assess and evaluate student writing Coppola draws a distinction between assessments which should be an interactive conversation with students and evaluation which is about judging and categorizing what students know and can do Renew offers a range of examples and resources that illustrate effective feedback for student writers including online videos of teacher student and peer to peer conferences Renew also offers ideas for how teachers can nurture their own writing lives and thus reinvigorate their instructional practice Through rethinking revising and renewing their practice teachers can not only strengthen students skills as writers but also nurture students to become critical thinkers problem solvers and risk takers in the classroom and in our rapidly changing world

On Mutant Pedagogies Stephanie Jones, James F Woglom, 2017-02-01 This ground breaking book on pedagogy research and philosophy in teacher education expands the imagination of justice oriented education and arts based scholarship Based

on a multi year study of Jones use of feminist pedagogies the book seamlessly moves between classroom practice theory and philosophy in a way that will offer something for everyone those who are looking for new ways of doing teacher education those who hope to better understand philosophy and those who seek new ways of doing inquiry and scholarship Demonstrating through pedagogy method and form that we have more power than we think and don t have to repeat what has been handed down to us the creators critique the restrictions of traditional teacher education and academic discourse This critique prompts a move outward into unpredictable spaces of encounter where a maybe world might be lived in education In this way Jones and Woglom don t make the case for a certain kind of pedagogy or scholarly inquiry that might be repeated but rather they invite educators and researchers to take seriously the philosophical ideas of Deleuze Guattari Barad and others who argue that humans are in a constant aesthetic process of becoming with other humans non human life and the material world around them Thus education even teacher education is not about reaching an already known end goal but growing and changing through multiple ways of being and perceiving in the world The authors call this mutant pedagogies and show one ethical path of mutating Seeing Comics through Art History Maggie Gray,Ian Horton,2022-06-17 This book explores what the methodologies of Art History might offer Comics Studies in terms of addressing overlooked aspects of aesthetics form materiality perception and visual style As well as considering what Art History proposes of comic scholarship including the questioning of some of its deep rooted categories and procedures it also appraises what comics and Comics Studies afford and ask of Art History This book draws together the work of international scholars applying art historical methodologies to the study of a range of comic strips books cartoons graphic novels and manga who as well as being researchers are also educators artists designers curators producers librarians editors and writers with some undertaking practice based research Many are trained art historians but others come from have migrated into or straddle other disciplines such as Comparative Literature American Literature Cultural Studies Visual Studies and a range of subjects within Art Design practice Contagious Imagination Jane Tolmie,2022-07-27 Contributions by Frederick Luis Aldama Melissa Burgess Susan Kirtley Rachel Luria Ursula Murray Husted Mark O Connor Allan Pero Davida Pines Tara Prescott Johnson Jane Tolmie Rachel Trousdale Elaine Claire Villacorta and Glenn Willmott Lynda Barry b 1956 is best known for her distinctive style and unique voice first popularized in her underground weekly comic Ernie Pook s Comeek Since then she has published prolifically including numerous comics illustrated novels and nonfiction books exploring the creative process Barry s work is genre and form bending often using collage to create what she calls word with drawing vignettes Her art imaginative and self reflective allows her to discuss gender race relationships memory and her personal everyday lived experience It is through this experience that Barry examines the creative process and offers to readers ways to record and examine their own lives The essays in Contagious Imagination The Work and Art of Lynda Barry edited by Jane Tolmie study the pedagogy of Barry s work and its application academically and practically Examining Barry s career and work from the
