Gustav Mahler Donald Mitchell,2005 The author s second book on the life and work of Gustav Mahler focuses principally on Mahler s first settings of Wunderhorn texts volumes I and II of the *Lieder und Gesaenge* his first song cycle the *Lieder eines fahrenden Gesellen* and the later orchestral settings of Wunderhorn poems The central section of the book explores the extraordinary and often eccentric chronology of the First Second and Third Symphonies composition an often minute exploration which reveals the interpenetration of song and symphony in this period of Mahler s art emphasizes the significance for these works of imagery drawn from the Wunderhorn anthology and calls attention to the ambiguous position occupied by much of Mahler s music at this time suspended as it was between the rival claims and forms of symphony and symphonic poem The final section of the book not only looks at the Fourth Symphony as the final perhaps most perfect flowering of Mahler s Wunderhorn symphonies but also investigates such fascinating topics as the relationship between Mahler and Berlioz and the influence of Bach on Mahler s later masterpieces This new edition of the book offers an entirely new preface in which Mitchell gives a unique account of the influence of politics nationalism and fascism on the reception and rejection of Mahler s music after the composer s death until the Mahler Renaissance of the 1950s and 1960s It also includes extensive corrigenda and amplifying addenda making it clear that the Wunderhorn influence persisted beyond the end of the period during which the Wunderhorn anthology was a constant source of

inspiration It is completed by an international bibliography which documents chronologically the reception and study of his music both in the past and the prodigiously different circumstances of the present
