Snyder's Mountains and Rivers Without End at the Stanford Humanities Center. Members of what came to be known among faculty, students and diverse community members as the Mountains Rivers Workshop met regularly to read and discuss Snyder's epic poem. Here the poem served as a commons that turned the multiversity into a university once again if only for a moment. The Workshop invited writers, teachers and scholars from Northern California and Japan to speak on various aspects of Snyder's great accomplishment. This book captures the excitement of these gatherings and invites readers to enter the poem through essays and talks by David Abram, Wendell Berry, Carl Bielefeldt, Tim Dean, Jim Dodge, Robert Hass, Stephanie Kaza, Julia Martin, Michael McClure, Nanao Sakaki and Katsunori Yamazato. It includes an interview with Gary Snyder, appendices and other resources for further study. Snyder once introduced a reading of this work with reference to whitewater rapids, saying most of his writing is like a Class III run where you will do just fine on your own but that Mountains and Rivers is more like Class V if you're going to make it to take out you need a guide. As a collection of commentaries and background readings, this companion volume enhances each reader's ability to find their way into and through an adventurous and engaging work of art.

Psychedelic Mysticism Morgan Shipley, 2015-11-12. Concerned with scholarly, popular and religious backdrops that understand the connection between psychedelics and mystical experiences to be devoid of moral concerns and ethical dimensions, a position supported empirically by the rise of acid fascism and psychedelic cults by the late 1960s, *Psychedelic Mysticism: Transforming Consciousness, Religious Experiences and Voluntary Peasants in Postwar America* traces the development of sixties psychedelic mysticism from the deconditioned mind and perennial philosophy of Aldous Huxley to the sacramental ethics of Timothy Leary, Richard Alpert and Ralph Metzner to the altruistic religiosity practiced by Stephen Gaskin and The Farm. Building directly off the pioneering psychedelic writing of Huxley, these psychedelic mystics understood the height of psychedelic consciousness as an existential awareness of unitive oneness, a position that offered worldly alternatives to the maladies associated with the postwar moment: e.g. vapid consumerism and materialism, lifeless conformity, unrelenting racism, heightened militarism. In opening a doorway to a common world, Morgan Shipley locates how psychedelics challenged the coherency of Western modernity by fundamentally reorienting postwar society away from neoliberal ideologies and toward a sacred understanding of reality defined by mutual coexistence and responsible interdependence. In 1960s America, psychedelics catalyzed a religious awakening defined by compassion expressed through altruism and actualized in projects that sought to ameliorate the conditions of the least advantaged among us. In the exact moments that historians and cultural critics often locate as signaling the death knell of the counterculture, Gaskin and The Farm emerged not as a response to the perceived failures of the hippies nor as an alternative to sixties politics but in an effort to fulfill the religious obligation to

help teach the world how to live more harmoniously Today as we continue to confront issues of socioeconomic inequality entrenched differences widespread violence and the limits of religious pluralism Psychedelic Mysticism serves as a timely reminder of how religion in America can operate as a tool for destabilization and as a means to actively reimagine the very basis of how people relate such a legacy can aid in our own efforts to build a more peaceful sustainable and compassionate world
