Cross Examined John W. Campbell, 2021-09-15 Christianity is more than just a religion. It is a social organism that affects the lives of every person on earth in significant ways even if they are not Christians themselves. In the United States its influence is pervasive with often profound influence on public policies but it is largely unchallenged as a belief system relegated to that quarantined area outside the zone of polite conversation. Despite much academic ink being allotted to the weaknesses of Christianity as a valid belief system the general public remains unaware of these flaws. In *Cross Examined* John Campbell applies his almost thirty years of experience as a trial lawyer to dissecting Christianity and the case of apologists for the Christian God. He addresses the best arguments for Christianity, those against it, and the reasons people should care about these questions. His purpose is to fill a void in books on atheism and Christianity by systematically taking Christian claims to task and making a full-throated argument for atheism from the perspective of a trial lawyer making a case.

Rhetoric, Humor, and the Public Sphere Elizabeth Benacka, 2016-11-02 *Rhetoric, Humor, and the Public Sphere* From Socrates to Stephen Colbert investigates classical and contemporary understandings of satire, parody, and irony and how these genres function within a deliberative democracy. Elizabeth Benacka examines the rhetorical history, theorization, and practice of humor spanning from ancient Greece and Rome to the contemporary United States. In particular, this book focuses on the contemporary work of Stephen Colbert and his parody of a conservative media pundit, analyzing how his humor took place in front of an uninitiated audience and ridiculed a variety of problems and controversies threatening American democracy. Ultimately, Benacka emphasizes the importance of humor as a discourse capable of calling forth a group of engaged citizens and a source of civic education in contemporary society.

The New York Times: It is a delight to wander through the bookstores of American history in this warm, generous book. Emma Straub, New York Times bestselling author and owner of Books Are Magic: An affectionate and engaging history of the American bookstore and its central place in American cultural life, from department stores to indies, from highbrow dealers trading in first editions to sidewalk vendors and from chains to special interest community destinations. Evan Friss's history of the bookshop draws on oral histories, archival collections, municipal records, diaries, letters, and interviews with leading booksellers to offer a fascinating look at this institution beloved by so many. Through a Distorted Lens Laura M. Nicosia, Rebecca A. Goldstein, 2017-07-20 This volume examines what and how the media teach to and by whom and for what purpose in a rapidly shifting milieu of media content platforms and relations While intimately concerned with education authors move the discussion beyond the setting of formal schooling to uncover the ways in which the media contribute to individual and collective understandings of self and other and their relations to society and communities in which they move In doing so the text encourages readers to transcend exclusionary discussions of citizenship to consider participation in local and global geographies against a neoliberal backdrop that marginalizes those unable to unwilling to and excluded from competing in the free market Contributors extend their deliberations back to formal school settings to reaffirm pedagogies that rediscover the reading of texts broadly defined in the world through multimodalities In this sense the text strives to be transdisciplinary and is appropriate for use in multiple
