Economic Cold War Shu Guang Zhang,2001 Why would one country impose economic sanctions against another in pursuit of foreign policy objectives How effective is the use of such economic weapons This book examines how and why the United States and its allies instituted economic sanctions against the People s Republic of China in the 1950s and how the embargo affected Chinese domestic policy and the Sino Soviet alliance *Call to Freedom* Sterling Stuckey,2003 Teaches U S history employing the themes geography economics government citizenship science technology and society culture Constitutional heritage and global relations **Peace and Power in Cold War Britain** Christopher R. Hill,2018-08-09 Peace and Power in Cold War Britain explores the ban the bomb and anti Vietnam War movements from the perspective of media history focusing in particular on the relationship between radicalism and the rise of television In doing so it addresses two questions both of which seem to recur with each major breakthrough in communications technology what do advances in communications media mean for democratic participation in politics and how do distinctive types of media condition the very nature of that participation itself In answering these the book views the ban the bomb and anti Vietnam War movements in relation to communication power and media discourse It highlights how these movements intersected with parts of public life that were being transformed by television themselves shaping struggles for social change among activists and public intellectuals on the streets in the Labour Party and in the law courts The significance of this relationship between media and movements was complex and wide ranging Christopher R Hill demonstrates that it contributed to the enrichment of democracy in Cold War Britain with radicals serving to innovate and pioneer creative forms of political expression from both

in and outside of media organisations However the movements increasingly succumbed to news coverage and values that revolved around human interest and violence feeding into the revolutionary spectacle of 1968 and the turn towards identity politics

The Global Cold War on Campus Kyara Anne Klausmann, 2023-11-06 How and why did students at Kabul University engage in political activism or refrained from it between 1964 and 1992 Based on oral history interviews with former students this book reveals how they as many others around the world at the same time were galvanized by and disappointed with promises of progress dominating local and international politics During the 1960s the international influences on campus encouraged students engagement with competing political ideologies Collective student protest against the monarchy turned into hostilities between opposing

political groups within the student body claiming to lead Afghanistan towards independence and prosperity After the coup d tat by the People s Democratic Party of Afghanistan PDPA in 1978 none of the ideologies which had previously incited students provided hope for a better future anymore Many students who had fought for the PDPA earlier were repelled by the government s violence and those who stood up against the regime were persecuted and fled the country Overall the dynamics of political activism at Kabul University reflect the deep intertwinement of the Global Cold War and local struggles for inclusion and independence
