The Fianchetto Solution Emmanuel Neiman, Samy Shoker, 2016-10-13 A Complete Solid and Flexible Chess Opening Repertoire for Black White with the King's Fianchetto When experienced chess teacher Emmanuel Neiman learned that some of his pupils hesitated to play in competitions for fear of being crushed in the opening he wanted to help Neiman knew that amateurs have little time to seriously study opening theory so he had to come up with a practical complete easy to learn and solid opening repertoire that would not outdate rapidly And that is what he did Neiman advises amateurs to play with both colours the flexible King's Fianchetto system where the Bishop is a defender of the King and at the same time an attacker No matter what side you are you use the same basic ideas as White you are targeting the light squares and as Black the dark squares while applying roughly the same strategies plans and tactical motifs Neiman has teamed up with Samy Shoker who gained the Grandmaster title by mainly playing the King's Fianchetto systems and sometimes beating 2700 rated players with it The result is a complete and practical repertoire which will give club players a sound and flexible middlegame position they can feel at home in In many lines Neiman and Shoker not only present a solid approach but also a sharp and aggressive alternative The authors don't promise you a large advantage every time you play their system but one thing is certain after studying this entertaining book you can play the opening confidently and you will be a better all round player because you have learned many essential middlegame lessons Even very strong players will find the ideas of Neiman and Shoker useful as an easy to play occasional weapon

A British army, as it was,--is,--and ought to be Col. James Campbell,2025-03-02 In A British Army as it was is and ought to be Colonel James Campbell presents a meticulous examination of the British military structure strategies and practices during his time Grounded in a detailed analysis of historical precedents and contemporary practices this work employs a blend of empirical evidence and thoughtful reflection reflecting the literary traditions of both military treatises and broader political discourse of the 19th century With eloquent prose Campbell dissects the operational efficacy organizational flaws

and potential reforms necessary for a more formidable military force positioning his argument within the context of rising global tensions and imperial ambitions Colonel James Campbell was a seasoned officer with firsthand experience in military operations which undoubtedly informed his critique and recommendations regarding the British Army His career spanning various military engagements provided him with unique insights into both the strengths and weaknesses of the institution Furthermore his commitment to national defense and military reform resonates throughout the book embodying the spirit of reformist thinking prevalent among contemporaries who feared obsolescence in an evolving geopolitical landscape This book stands as a crucial resource for historians military enthusiasts and policymakers alike Campbell s foresight and analytical prowess offer invaluable lessons that remain relevant in contemporary discussions about military preparedness and reform Readers seeking to understand the complexities of military evolution will find this work an essential addition to their library

Taming Wild Chess Openings John Watson,2015-11-04 No matter how unconventional irrational or even crazy an opening is sooner or later every chess player will have to face it When that happens you can count on a well prepared opponent who is more than happy to roll out his pet line John Watson and Eric Schiller provide club players with solutions to a huge selection of these rarely played or tricky chess openings They concentrate upon ideas and strategy with enough analysis to satisfy the needs of practical play Only when a sharp reply is required Watson and Schiller will recommend a more complex variation filled with tactics In the vast majority of cases they present a simple and safe way to approach the position requiring little memorization and still leading to a promising game There is a lot of fun material in this book and you may be surprised to see how even strong grandmasters have indulged in the craziest variations Chess isn t all main lines and 20 moves of theory
