The Community Land Trust Legal Manual, 2002 **Creating Community-Led and Self-Build Homes** Martin Field, 2020-06-24

In *Creating Community Led and Self Build Homes* Martin Field explores the ways in which people and communities across the UK have been striving to create the homes and neighbourhood communities they want. Giving context to contemporary practices in the UK, the book examines self-build housing and community-led housing, discussing the commonalities and distinctions between these in practice and what could be learned from other initiatives across Europe. Individual methods and models of local practice are explored, including cohousing, cooperatives, community land trusts, empty homes and other intentional communities, and an examination is made of what has constrained such initiatives to date and how future policies and practice might be shaped.

Handbook of Gentrification Studies Loretta Lees, Martin Phillips, 2018-04-27

It is now over 50 years since the term gentrification was first coined by the British urbanist Ruth Glass in 1964, in which time gentrification studies has become a subject in its own right. This Handbook, the first ever in gentrification studies, is a critical and authoritative assessment of the field. Although the Handbook does not seek to rehearse the classic literature on gentrification from the 1970s to the 1990s in detail, it is referred to in the new assessments of the field gathered in this volume. The original chapters offer an important dialogue between existing theory and new

conceptualisations of gentrification for new times and new places in many cases offering novel empirical evidence *Rocky Mountain Divide* John B. Wright, 2010-07-22 The opposing forces of conservation and development have shaped and will continue to shape the natural environment and scenic beauty of the American West Perhaps nowhere are their opposite effects more visible than in the neighboring states of Colorado and Utah so alike in their spectacular mountain environments yet so different in their approaches to land conservation This study explores why Colorado has over twenty five land trusts while Utah has only one John Wright traces the success of voluntary land conservation in Colorado to the state s history as a region of secular commerce As environmental consciousness has grown in Colorado people there have embraced the businesslike approach of land trusts as simply a new more responsible way of conducting the real estate business In Utah by contrast Wright finds that Mormon millennialism and the belief that growth equals success have created a public climate opposed to the formation of land trusts As Wright puts it environmentalism seems to thrive in the Centennial state within the spiritual vacuum which is filled by Mormonism in Utah These findings remind conservationists of the power of underlying cultural values that affect their efforts to preserve private lands Profiles of Community Land Trusts ,1993 **The**
