The Countess English Edition:

Clandestine Erotic Fiction in English 1800-1930 Peter Mendes, 2016-12-05 This work offers bibliographical descriptions of all printings of erotic fiction in English issued clandestinely during the period 1800-1930. By clandestine is meant books whose publishers and printers attempt to hide their identities usually by offering title pages whose misleading places and dates of publication may shock and amuse but which always aim to mystify. Using internal and external evidence an attempt is made to establish who were the printers, booksellers and publishers English and Continental involved in this trade. The printing families or groups into which a large percentage of the material falls are classified accompanied by illustrations which identify the main printing characteristics house styles of the groups. Bibliographical descriptions follow a checklist of clandestine catalogues these provide valuable evidence for dating pricing and sales pitch and information on items of which no copies can now be traced. The work concludes with a series of appendices which provide significant external evidence and three indexes of themes titles and names. Peter Mendes original research builds on and significantly extends the essential pioneer work of the Victorian collector and bibliographer H. S. Ashbee. Women's Writing, 1660-1830 Jennie Batchelor, Gillian Dow, 2016-12-19 This book is about mapping the future of eighteenth century women's writing and feminist literary history in an academic culture that is not shy of declaring their obsolescence. It asks what can or should unite us as scholars devoted to the recovery and study of women's literary history in an era of big data on the one hand and ever more narrowly defined specialization on the other. Leading scholars from the UK and US answer this question in thought provoking cross disciplinary and often polemical essays. Contributors attend to the achievements of eighteenth century women writers and the scholars who have devoted their lives to them and map new directions for the advancement of research in the area. They collectively argue that eighteenth century women's literary history has a future and that feminism was and always should be at its heart. rise to power of the French king Henri IV Barclay's romance is peppered with numerous veiled anecdotes of politics at the English and other European courts and long disquisitions on statecraft and political ethics It has been assumed that Barclay's work was strictly for a male audience but Man's translation is evidence that women did in fact read *Argenis* and might even suggest that allegorical romance offered women writers and readers an inroad into political discourse **Lower hall.
