Shaffern, 2009-01-16 This concise intellectual history of the law offers an accessible introduction to the ideas and contexts of law from ancient Babylon to eighteenth century Europe Robert W Shaffern examines a rich array of sources to illuminate ideas about law and justice in Western civilization He identifies four main sources for traditional jurisprudence the civilizations of the Fertile Crescent and classical Athens the legal legacy of ancient Rome the legal traditions of the Middle Ages and developments in early modern Europe By focusing on the recurring issues and historical contexts of the law the author shows the extensive influence earlier sources had on the later development of Western law For instance the ancient code of Hammurabi pledged to obtain justice for the widow and the orphan a phrase that appeared again in later laws Also the tragedies of Aeschylus insisted that private individuals pursue vengeance but government judiciaries upheld justice an idea that the early modern European monarchies advanced when they promulgated new codes of criminal law Additionally Roman medieval and modern jurists all believed that natural law theory served as a rational criterion for legislators and judges Throughout the span of centuries covered in the text governments used law to regulate or monopolize the employment of violence Designed to introduce undergraduates to the significant developments and ideas about the law and justice this book will be invaluable for courses on the history of law and jurisprudence *Vernacular Law* Ada Maria Kuskowski, 2022-11-03 Custom was fundamental to medieval legal practice Whether in a property dispute or a trial for murder the aggrieved and accused would go to lay court where cases were resolved according to custom What custom meant however went through a radical shift in the medieval period Between the twelfth and thirteenth centuries custom went from being a largely oral and performed practice to one that was also conceptualized in writing Based on French lawbooks known as coutumiers Ada Maria Kuskowski traces the repercussions this transformation in the form of custom from unwritten to written and in the language of law from elite Latin to common vernacular had on the cultural world of law Vernacular Law offers a new understanding of the formation of a new field of knowledge authors combined ideas experience and critical thought to write lawbooks that made disparate customs into the field known as customary law

Diagramming Devotion Jeffrey F. Hamburger,2020-09-21 During the European Middle Ages diagrams provided a critical tool of analysis in cosmological and theological debates In addition to drawing relationships among diverse areas of human knowledge and experience diagrams themselves generated such knowledge in the first place In *Diagramming Devotion* Jeffrey F Hamburger examines two monumental works that are diagrammatic to their core a famous set of picture poems of unrivaled complexity by the Carolingian monk Hrabanus Maurus devoted to the

praise of the cross and a virtually unknown commentary on Hrabanus's work composed almost five hundred years later by the Dominican friar Berthold of Nuremberg. Berthold's profusely illustrated elaboration of Hrabanus translated his predecessor's poems into a series of almost one hundred diagrams. By examining Berthold of Nuremberg's transformation of a Carolingian classic, Hamburger brings modern and medieval visual culture into dialogue, traces important changes in medieval visual culture, and introduces new ways of thinking about diagrams as an enduring visual and conceptual model.

The Romance of Adultery Peggy McCracken, 2013-04-05 Peggy McCracken offers a feminist historicist reading of Guinevere, Iseult, and other adulterous queens of Old French literature and situates romance narratives about queens and their lovers within the broader cultural debate about the institution of queenship in twelfth and thirteenth century France. Moving among a wide selection of narratives that recount the stories of queens and their lovers, McCracken explores the ways adultery is appropriated into the political structure of romance. McCracken examines the symbolic meanings and uses of the queen's body in both romance and the historical institutions of monarchy and points toward the ways medieval romance contributed to the evolving definition of royal sovereignty as exclusively male.

The Routledge Handbook of Medieval Rural Life Miriam Müller, 2021-10-26 The Routledge Handbook of Medieval Rural Life brings together the latest research on peasantry in medieval Europe. The aim is to place peasants as small scale agricultural producers firmly at the centre of this volume as people with agency, immense skill and resilience to shape their environments, cultures and societies. This volume examines the changes and evolutions within village societies across the medieval period over a broad chronology and across a wide geography. Rural structures, families and hierarchies are examined alongside tool use and trade as well as the impact of external factors such as famine and the Black Death. The contributions offer insights into multidisciplinary research incorporating archaeological as well as landscape studies alongside traditional historical documentary approaches across widely differing local and regional contexts across medieval Europe. This book will be an essential reference for scholars and students of medieval history as well as those interested in rural cultural and social history.

Framing Devices and Global Legal Traditions Laura Culbertson, Susan Longfield Karr, 2025-07-25 This collection explores prefaces, prologues, paratexts, and other types of framing devices. Across world history, these devices have introduced the law, articulated its context and audience, identified the basis of legal and moral authority, critiqued existing conditions, or even tried to restore something that never was. Scribes, lawmakers, and legal theorists also used frames to position the law in time and space, purporting to define populations and their identities. Despite the ubiquity and complexity of these phenomena, few studies have drawn out methods for studying their role in constructing, fortifying, or reimagining legal frameworks within legal cultures or traditions. This volume offers new ways to consider the significance of framing apparatuses regarding how and why they are created, remembered, forgotten, utilized, and recovered within legal traditions. The studies range from the ancient world to the modern nation state system, aiming to explore the intersections and collisions between juridical and political interpretation practices.

The book will be of interest to academics and researchers in the areas of legal history comparative law legal cultures and traditions legal theory jurisprudence constitutional law and legislative drafting

Out of the Mouths of Babes Julie Singer, 2025-03-10 A wide ranging study of the rich questions raised by speaking infants in medieval French literature Medieval literature is full of strange moments when infants even fetuses speak In *Out of the Mouths of Babes* Julie Singer explores the unsettling questions raised by these events including What is a person Is speech fundamental to our humanity And what does it mean or what does it matter to speak truth to power Singer contends that descriptions of baby talk in medieval French literature are far from trivial Through treatises manuals poetry and devotional texts Singer charts how writers imagined infants to speak with an authority untainted by human experience What their children say then offers unique insight into medieval hopes for universal answers to life's deepest wonderings

Chivalry and the Ideals of Knighthood in France during the Hundred Years War Craig Taylor, 2013-10-10 Craig Taylor's study examines the wide ranging French debates on the martial ideals of chivalry and knighthood during the period of the Hundred Years War 1337-1453 Faced by stunning military disasters and the collapse of public order writers and intellectuals carefully scrutinized the martial qualities expected of knights and soldiers They questioned when knights and men at arms could legitimately resort to violence the true nature of courage the importance of mercy and the role of books and scholarly learning in the very practical world of military men Contributors to these discussions included some of the most famous French medieval writers led by Jean Froissart Geoffroi de Charny Philippe de Mézières Honorat Bovet Christine de Pizan Alain Chartier and Antoine de La Sale This interdisciplinary study sets their discussions in context challenging modern romantic assumptions about chivalry and investigating the historical reality of debates about knighthood and warfare in late medieval France
