The Culture Of The Europeans Text Only Edition:

The Culture of the Europeans (Text Only Edition) Donald Sassoon, 2012-06-28 A magisterial narrative account of the creation and consumption of all forms of culture across the European continent over the last two hundred years

Collaborative Translation and Multi-Version Texts in Early Modern Europe Belén Bistué, 2016-05-23 Focusing on team translation and the production of multilingual editions and on the difficulties these techniques created for Renaissance translation theory this book offers a study of textual practices that were widespread in medieval and Renaissance Europe but have been excluded from translation and literary history The author shows how collaborative and multilingual translation practices challenge the theoretical reflections of translators who persistently call for a translation text that offers a single univocal version and maintains unity of style In order to explore this tension Bistu discusses multi version texts in both manuscript and print from a diverse variety of genres the Scriptures astrological and astronomical treatises herbals goliardic poems pamphlets the Greek and Roman classics humanist grammars geography treatises pedagogical dialogs proverb collections and romances Her analyses pay careful attention to both European vernaculars and classical languages including Arabic which played a central role in the intense translation activity carried out in medieval Spain Comparing actual translation texts and strategies with the forceful theoretical demands for unity that characterize the reflections of early modern translators the author challenges some of the assumptions frequently made in translation and literary analysis The book contributes to the understanding of early modern discourses and writing practices including the emerging theoretical discourse on translation and the writing of narrative fiction both of which as Bistu shows define themselves against the models of collaborative translation and multi version texts The Cultural Study of Yiddish in Early Modern Europe J.

Frakes, 2016-10-19 A unique analysis of the intensive interest in Jewish culture of early modern Christian Humanists as a part of their comprehensive program of study of Greek Latin and Hebrew The book focuses on how that interest was particularly manifested in a score of treatises on Sixteenth and Seventeenth Century Yiddish language and literature The Cultural Legacy of the Pre-Ashkenazic Jews in Eastern Europe Moshe Taube, 2023-01-10 A free ebook version of this title is available through Luminos University of California Press s Open Access publishing program Visit www.luminosoa.org to learn more This book uncovers cultural traces of the ancient Jewry of Eastern Europe from the 10th to 15th centuries These traces take the form of translations from Hebrew into East Slavic ranging from accounts of Old Testament prophets and other historical figures of interest to both Jews and Christians such as Alexander the Great to scientific and philosophical texts on everything from astronomy to physiognomy to metaphysics Moshe Taube s fine grained analysis teases out a robust picture of this massive cultural enterprise the translators their erudition their biases and their collaborative method of translation with neighboring Christians Summarizing over thirty years of philological and linguistic research this book offers a substantial original contribution to the cultural history of Jews in Eastern Europe and their interaction with and influence on Slavic

culture in the Middle Ages and Early Modern period **Europe** Peter Rietbergen,2015 Discusses the cultural history of Europe from prehistory to the modern day Includes illustrations maps and case studies Provided by publisher **Europe** P. J. A. N. Rietbergen,1998 This major contribution to the idea of Europe sweeps the continent from its Celtic and German origins through the influence of the Greeks and Romans to the fruitful and sometimes bloody contacts with other cultures Peter Rietbergen portrays Europe s history as a series of four grand phases of continuity and change set in the context of political social and economic developments These phases are new forms of surviving believing looking at man and the world and consumption and communication Rietbergen s descriptions are supported by a selection of illuminating excerpts such as Chaucer s description of London in 1378 Michelangelo on Italian art and popular music lyrics of Iron Maiden and Sting *At the Vanishing Point in History* Marina F. Bykova,2024-11-14 Putin s war has prompted a deep analysis and reevaluation of the forces driving this deadly confrontation *At the Vanishing Point in History* brings together renowned humanities scholars and prominent novelists to explore the roots and causes of the ongoing catastrophe in Eastern Europe This distinguished group of Russian migr s well versed in Russian culture history and philosophy aims to examine the past to understand the present Experts in the inner workings of Russian society who have fled the country they believe it is their responsibility to critically assess the current crisis reflect on its origins and outline the agenda for future research in the humanities In response to this challenge they present a collection of analytical essays that offer essential background and context for understanding the unfolding events in Europe Today s Russia is perhaps the most representative example of the grave threat that tyranny poses to global civilization In its brutal attack on Ukraine Putin s regime holds not only Russians but all of humanity hostage The atrocities committed in the name of the Russian world make it urgent to thoroughly investigate Russia s current political pursuit in order to uncover its true origins and find a way forward *History of the Literary Cultures of East-Central Europe* Marcel Cornis-Pope,John Neubauer,2007-07-18 The third volume in the *History of the Literary Cultures of East Central Europe* focuses on the making and remaking of those institutional structures that engender and regulate the creation distribution and reception of literature The focus here is not so much on shared institutions but rather on such region wide analogous institutional processes as the national awakening the modernist opening and the communist regimentation the canonization of texts and censorship of literature These processes which took place in all of the region s cultures were often asynchronous and subjected to different local conditions The volume s premise is that the national awakening and institutionalization of literature were symbiotically interrelated in East Central Europe Each national awakening involves a language renewal an introduction of the vernacular and its literature in schools and universities the creation of an infrastructure for the publication of books and journals clashes with censorship the founding of national academies libraries and theaters a re construction of national folklore and the writing of histories of the vernacular literature The four parts of this volume are titled 1 Publishing and Censorship 2 Theater as a Literary Institution 3 Forging Primal Past

The Uses of Folk Poetry and 4 Literary Histories Itineraries of National Self images Handbook of Religious Culture in Nineteenth-Century Europe Anthony Steinhoff, Jeffrey Zalar, 2024-12-30 This handbook offers a guide to research on religious culture during Europe's long nineteenth century 1800-1914 Grounded in the latest theoretical approaches and in line with trends that have produced a religious turn in the study of modern Europe the volume assesses the state of the field while making provocative recommendations for its enlargement Unique and ambitious in its thematic breadth it addresses the histories of all five of Europe's main religious traditions Eastern Orthodox Christianity Judaism Islam Protestantism and Roman Catholicism and brings these histories into comparative analysis This analysis extends to a wide range of subjects from popular belief and practice education and modern knowledge formation and the arts to the intersections between religion and urbanization civil society and politics and missions and imperialism It also evaluates recent developments in work on religion vis vis both gender and nationalism while calling attention to newer research that proposes secularism as a form of belief in its own right Presenting the scholarship of eighteen leaders in their respective fields the volume explains why religion as a topic of research has moved from the periphery to the center of modern European historiography Book Production and Letters in the Western European Renaissance Anna Laura Lepschy, John Took, J. F. Took, Dennis E. Rhodes, 1986 First published in 1986 Routledge is an imprint of Taylor Francis an informa company *European Military Books and Intellectual Cultures of War in 17th-Century Russia* Oleg Rusakovskiy, 2024-09-16 This book discusses the role Western military books and their translations played in 17th century Russia By tracing how these translations were produced distributed and read the study argues that foreign military treatises significantly shaped intellectual culture of the Russian elite It also presents Tsar Peter the Great in a new light not only as a military and political leader but as a devoted book reader and passionate student of military science **Othello in European Culture** Elena Bandín Fuertes, Francesca Rayner, Laura Campillo Arnaiz, 2022-05-15 This volume argues that a focus on the European reception of Othello represents an important contribution to critical work on the play The chapters in this volume examine non anglophone translations and performances alternative ways of distinguishing between texts adaptations and versions as well as differing perspectives on questions of gender and race Additionally a European perspective raises key political questions about power and representation in terms of who speaks for and about Othello within a European context profoundly divided over questions of immigration religious ethnic gender and sexual difference The volume illustrates the ways in which Othello has been not only a stimulus but also a challenge for European Shakespeares It makes clear that the history of the play is inseparable from histories of race religion and gender and that many engagements with the play have reinforced rather than challenged the social and political prejudices of the period **Understanding Central Europe** Marcin Moskalewicz, Wojciech Przybylski, 2017-11-20 Central Europe is a vague and ambiguous term more to do with outlook and a state of mind than with a firmly defined geographical region In the immediate aftermath of the collapse of the Iron Curtain Central Europeans

considered themselves to be culturally part of the West which had been politically handicapped by the Eastern Soviet bloc More recently and with European Union membership Central Europeans are increasingly thinking of themselves as politically part of the West but culturally part of the East This book with contributions from a large number of scholars from the region explores the concept of Central Europe and a number of other political concepts from an openly Central European perspective It considers a wide range of issues including politics nationalism democracy and the impact of culture art and history Overall the book casts a great deal of light on the complex nature of Central Europe *Alexandre Kojève* Boris Groys, 2025-11-11 In this intellectual biography critic and philosopher Boris Groys turns to the Arthur Rimbaud of modern bureaucracy Alexandre Kojève a philosopher of little known writings and profound influence Kojève was fascinated with Hegel's dialectics and with communism and envisioned a universal empire as the end of history Kojève drew on Buddhism and also proclaimed himself a Stalinist At the same time he was one of the creators of a nascent European Union His concept of the human as something defined by negation and unique among animals in being separated from nature is highly political It explains why humans can never be fully satisfied by a political system based on their allegedly natural rights Groys reveals a Kojève with a unique perspective on our political capacities and human condition **Parliamentary Assembly Texts adopted 2002 Ordinary session (Third part), June 2002** Council of Europe, 2002-10-10 Literary Forgery in Early Modern Europe, 1450-1800 Walter Stevens, Earle A Havens, 2019-01-15 The essays gathered in this volume demonstrate that studying early modern European literary forgeries is a fascinating cultural adventure Lina Bolzoni author of *The Gallery of Memory* This comprehensive study of literary and historiographical forgery goes well beyond questions of authorship It spotlights the imaginative vitality of forgery and its sinister impact on genuine scholarship This volume demonstrates that early modern forgery was a literary tradition in its own right with distinctive connections to politics Greek and Roman classics religion philosophy and modern literature The early modern explosion in forgery of all kinds particularly in the fields of literary and archaeological falsification demonstrates a dramatic shift in attitudes toward historical evidence and in the relation of texts to contemporary society The authors capture the impact of this evolution within many cultural transformations including the rise of print changing tastes and fortunes of the literary marketplace and the Protestant and Catholic Reformations The thirteen essays draw on Johns Hopkins University's Bibliotheca Fictiva the world's premier research collection dedicated exclusively to the subject of literary forgery It consists of several thousand rare books and unique manuscript materials from the early modern period and beyond Contributors Frederic Clark James Coleman Richard Cooper Arthur Freeman Anthony Grafton A Katie Harris Earle A Havens Jack Lynch Shana D O Connell Ingrid Rowland Walter Stephens Elly Truitt Kate Tunstall *The Routledge Handbook of the Mongols and Central-Eastern Europe* Alexander V. Maiorov, Roman Hautala, 2021-08-25 The Routledge Handbook of the Mongols and Central Eastern Europe offers a comprehensive overview of the Mongols military political socio economic and cultural relations with Central and

Eastern European nations between the thirteenth and fifteenth centuries The Mongol Empire was the largest contiguous land empire in history and one which contributed to the establishment of political commercial and cultural contacts between all Eurasian regions The Golden Horde founded in Eastern Europe by Chinggis Khan's grandson Batu in the thirteenth century was the dominant power in the region For two hundred years all of the countries and peoples of Central and Eastern Europe had to reckon with a powerful centralized state with enormous military potential Some chose to submit to the Mongols whilst others defended their independence but none could avoid the influence of this powerful empire In this book twenty five chapters examine this crucial period in Central Eastern European history including trade confrontation and cultural and religious exchange between the Mongols and their neighbours This book will be an essential reference for scholars and students of the Mongols as well those interested in the political social and economic history of medieval Central Eastern Europe
