A Dark Night's Dreaming Tony Magistrale, Michael A. Morrison, 1996 *A Dark Night's Dreaming* opens by defining the shape of horror fiction today, illuminating the genre's narrative themes, psychological and social contexts, and historical development. The core of the volume focuses on the lives and major works of the six who have dramatically shaped the genre: William Peter Blatty, Thomas Harris, Stephen King, Anne Rice, Peter Straub, and Whitley Strieber. A final chapter analyzes the complex relationship between horror fiction and its adaptation to film. Looking beyond the tormented maidens, madmen, monsters, and other archetypes of the genre, these critics differentiate contemporary Gothic fiction from that of earlier generations while demonstrating that horror remains one of the most important and consistent strains connecting the diverse elements of the American literary tradition. They comment on the genre's enormous popularity and undeniable influence in American society and scrutinize its changing representations of women, monsters, and gore. The volume concludes with an extensive bibliography of primary and secondary works.

Stephen King's Gothic John Sears, 2011-06-30 Stephen King is the world's best-selling horror writer. His work is ubiquitous on bookstore, supermarket, and personal library shelves and has been faithfully adapted into some of the most iconic horror films of the twentieth century. This study explores his writing through the lenses of contemporary literary and cultural theory. Through analyses of some of his best-known work, including *Carrie* and *Misery*, the authors argue that King offers ways of encountering and understanding some of our deepest fears about life and death, the past and the future, technological change, other people, monsters, ghosts, and the supernatural. This is the first extended critical theoretical engagement with King's writing and will be of interest to students, academics, and fans of horror fiction.
