Family Law Flavia Agnes,2011-01-05 Family law in India has a complex legal structure where different religious communities are guided by their own personal laws each of which historically evolved under various social religious political and legal influences In two comprehensive and lucid volumes Flavia Agnes a leading activist and advocate in the area examines family law in the light of social realities contemporary rights discourse and the idea of justice What is unique in these volumes is that the ground level litigation practices around women s rights are interwoven with the critical analyses of the statutory provisions Relying extensively upon case law Volume 1 examines the evolution of the personal laws of Hindus Muslims Christians Parsis and Jews during the colonial and postcolonial periods how these laws are applied in contemporary questions of marriage divorce property rights and succession and whether it is possible to bring the law in conformity with modern changes through and in both the formal and statutory law and the pluralistic and fluid community based practices It also extensively examines the role of the judiciary the political and academic debates around the issue of uniform civil code and women s citizenship claims in a stratified and hierarchical social order *Islam and the English Enlightenment, 1670-1840* Humberto Garcia,2012-01-30 A corrective addendum to Edward Said s *Orientalism* this book examines how sympathetic representations of Islam contributed significantly to Protestant Britain s national and imperial identity in the eighteenth century Taking a historical view Humberto Garcia combines a rereading of eighteenth century and Romantic era

British literature with original research on Anglo Islamic relations He finds that far from being considered foreign by the era's thinkers Islamic republicanism played a defining role in Radical Enlightenment debates most significantly during the Glorious Revolution French Revolution and other moments of acute constitutional crisis as well as in national and political debates about England and its overseas empire Garcia shows that writers such as Edmund Burke Lady Mary Wortley Montagu Samuel Taylor Coleridge Robert Southey and Percy and Mary Shelley not only were influenced by international events in the Muslim world but also saw in that world and its history a viable path to interrogate contest and redefine British concepts of liberty This deft exploration of the forgotten moment in early modern history when intercultural exchange between the Muslim world and Christian West was common resituates English literary and intellectual history in the wider context of the global eighteenth century The direct challenge it poses to the idea of an exclusionary Judeo Christian Enlightenment serves as an important revision to post 9 11 narratives about a historical clash between Western democratic values and Islam
