The Cold War Comes Home Guided Reading:

A Cold War Tourist and His Camera Martha Langford, John Langford, 2011-01-27 Martha Langford and John Langford examine their father's apparently innocuous photographic experience revealing the complexity of both the images and their creator. An intelligent and personal look at the ways that the historical and the private are represented and remembered. **A Cold War Tourist and His Camera** stages the family slide show as you've never seen it before.

The Vietnam War from the Rear Echelon Timothy J. Lomperis, 2023-04-21 Timothy Lomperis knows the Vietnam War both as a soldier and as a scholar. In the latter role he has published extensively including *The War Everyone Lost and Won* hailed as one of the best books ever written on that conflict. Even though he served two tours in country during the war's most frustrating period from the infamous Easter Invasion through the Paris Peace negotiations this is the first time he has written about the war from such a personal perspective. An intelligence officer at the Military Assistance Command Vietnam MACV Lomperis and his comrades were tasked with translating Washington war policy into action. Lomperis provides a rare view of the war from the perspective of a rear echelon officer. He and other so-called REMFs were deeply involved in trying to devise and implement strategies that would win the war. This largely neglected perspective takes center stage in Lomperis's memoir presenting a seldom-seen midlevel perspective that provides the missing links between the Washington-Hanoi peace negotiations and the deadly battles between troops in the field. In exposing the inner workings of a military headquarters during wartime Lomperis recounts the tensions of a command caught between the political imperatives of Washington and the deteriorating military situation on the ground. Involved in the planning and execution of Nixon's 1972 Christmas Bombing Campaign designed to push the North Vietnamese into peace negotiations Lomperis sheds new light on Nixon's secret plan to end the war while offering rare glimpses of military operations and decision making on the ground in Saigon. Giving color to the REMF story he also offers a portrait of life in wartime Saigon writing with genuine respect for and curiosity about Vietnamese culture. And ultimately he describes his own moral conundrum as the son of missionaries and an initial Cold Warrior who undergoes a gradual disillusionment that resolves into peaceful reconciliation. This incisive memoir is essential for better comprehending what the Vietnam experience was like for the large contingent of Americans who served there. It suggests the need for some fundamental rethinking about Vietnam not only for the war's veterans but also for those concerned with the lessons it carries for U.S. involvement in current insurgencies.

The World the Cold War Made James E. Cronin, 2021-11-18 An examination of the Cold War from the creation and structure of the postwar settlement to the eventual coming apart of the postwar order in the 1980s and early 1990s. James Cronin explores the creation and structure of the postwar settlement and the eventual coming apart of the postwar order in the 1980s and early 1990s. Cronin argues that the current state of the world must be understood against the backdrop of the postwar order that until recently governed, prevented or distorted political and economic change.

Jason A. Edwards, 2008-12-16 Jason A Edwards explores the various rhetorical choices and strategies employed by former President Bill Clinton to discuss foreign policy issues in a new post Cold War era Edwards argues that each American president has situated himself within the same foreign policy paradigm drawing upon the same set of ideas and utilizing the same basic vernacular to discuss foreign policy He describes how former presidents and President Clinton in particular made modifications to this paradigm leaving a rhetorical signature that tells us as much about the nature of their presidency as it does about the international environment they faced With the end of the Cold War came the end of a relatively stable international order This end sparked intense debates about the new direction of American foreign policy As Bill Clinton took office he developed a new lexicon of words in order to discuss America s changing role in the world and other major international issues of the time without being able to fall into Cold War era rhetoric By examining the nuances and unique contributions President Clinton made to American foreign policy rhetoric Edwards shows how his distinct rhetorical signature will influence future administrations *Arthur's Illustrated Home Magazine* ,1867 **Tales of a Cold War Submariner**
