	What the Soviets Wanted	What the Americans Wanted
1. Would it make any sense to build space programs and rockets?	That U.S. support them economically (training, fuel, etc.)	Not really.
2. Would anyone benefit from the rockets and space-related technology?	They would certainly gain access to rockets that were better. They had a billion-dollar industry in the U.S. to build the rockets for them.	They were worried about the loss of U.S. technology when John F. Kennedy became president. He thought that the Soviet Union was ahead of them in rocket technology, and he wanted to prevent that from happening.
3. Would anyone disagree with this?	Not really.	Some people in the U.S. were worried that the Soviets would use the rockets to launch nuclear weapons.
4. Would the U.S. government agree to build rockets and space-related technology?	Yes, the government would agree to build rockets and space-related technology.	Yes, the government would agree to build rockets and space-related technology.

2. What do you think the Soviets thought of the Americans' agreement?

They thought the Americans were foolish.

They thought the Americans were stupid.

They thought the Americans were weak.

They thought the Americans were not as smart as they thought.
