	What the Soviets Wanted	What the Americans Wanted
1. Would it make any sense to build space programs and rockets?	That U.S. support them economically (training, fuel, etc.)	Not really.
2. Would anyone benefit from the rockets and satellites they could build?	They would certainly produce satellites that were better. They would improve delivery of aid.	They were worried about being in debt to the Americans because of the U.S. promise that John F. Kennedy would remove troops, planned weapons, and conduct all forward (forward) troops from Cuba.
3. Would anyone challenge either side?	Not really.	Others might be angry because they had lost the war.
4. Would the two nations agree to work together?	Yes, the governments had no problems. There was no common enemy.	Yes, because people were surprised and would not take a revolution like this.
