5 pages | 1028 words

HALE: You must certainly do, and you will free her from it now! " In this instance Tituba cannot resist because she is merely a slave and Hale is her superior. We, free from the restraints of society as they knew it, can stand back and see the injustice that is so prevalent in Salem. In this sense we share a viewpoint with John Proctor. He, in his isolation from society, can see conservative Salem with all its travesties quite clearly, as can we, the modern audience. This isolation derives in part from his constant conflict with other members of Salem society such as Parris and Hale. In turn, the root of this conflict is in Proctor's broadly different values, unlike those held by the community as a whole. Proctor for example, refuses to accept the allegations of witchcraft at face value, while everyone else is all too happy to mix rumours and truth. Hence, Proctor acts as the rational staple of Salem, the eyes if you like, through which a modern audience can see and make sense of it all. Proctor's centrality to the plot of 'The Crucible' is vital as far as Miller's underlying meaning is concerned. If Proctor does indeed represent Miller, then he must be centrally involved in the play in order that the audience may see all aspects of it. Indeed, Proctor's journey through the events of the play is the audience's own. As the play draws to a close, so too does Proctor's life. He is driven away to his death, leaving Elizabeth on stage as the final curtain falls. Thus, Proctor's battle between truth and life provides the moral to Miller's tale. As Proctor chooses the path of a truthful and virtuous death - the path we see as morally right - the audience sees Proctor to have triumphed over the hypocrisy all around him, hence proving his choice to be right and providing a moral for the story. However, in order for Proctor to function properly in his role as the eyes of the audience, it is vital that the audience sympathises with his plight. Were Proctor made out to be a bad character, then whatever path he ultimately chose would similarly be made out to be the wrong such choice. This would completely change the meaning of the play, making it appear to support the concept of the witch trials. Miller had to ensure that Proctor maintained in the eyes of the audience the status of the tragic hero - someone they could empathise with, sympathise with, and respect equally. There are a number of means by which Miller ensures that the audience comes to like and sympathise with Proctor. For example, in a play which opens with crying and conflict, Proctor is the only character who openly laughs (act one, page 25) making him seem a relaxed and likeable character, and instantly separating him from the anguish and hysteria of the other characters. He refuses to accept others' truths, preferring to make up his own mind, and hence does not collapse into the panic that others are all too ready...
