Chinese Recorder and Missionary Journal ,1916 The Chinese Recorder ,1916 **The Rediscovery of America**

Stuart Andrews,1998-10-15 The Rediscovery of America features some twenty representatives of England France and America whose careers in some sense straddled the Atlantic in the last quarter of the eighteenth century While not establishing causal links between the American and French Revolutions the collective weight of these individual responses to the new America supports the idea of an Atlantic Revolution This study of the writings and transatlantic experiences of the revolutionary generation shows the power of American images in shaping political rhetoric if not political reality *The True Christian Religion ... Eighth Edition* Emanuel Swedenborg,1855 Tree of Hate Philip Wayne Powell,2008-10-16 Powell seeks not merely to trace the origins of what he calls Hispanophobia but to analyze its impact on American education textbooks religion and especially foreign policy Journal of American History **Empires of God** Linda Gregerson,Susan Juster,2013-02-11 Religion and empire were inseparable forces in the early modern Atlantic world Religious passions and conflicts drove much of the expansionist energy of post Reformation Europe providing both a rationale and a practical mode of organizing the dispersal and resettlement of hundreds of thousands of people from the Old World to the New World Exhortations to conquer new peoples were the lingua franca of Western imperialism and men like the mystically inclined Christopher Columbus were genuinely inspired to risk their lives and their fortunes to bring the gospel to the Americas And in the thousands of religious refugees seeking asylum from the vicious wars of religion that tore the continent apart in the sixteenth and seventeenth centuries these visionary explorers found a ready pool of migrants English Puritans and Quakers French Huguenots German Moravians Scots Irish Presbyterians equally willing to risk life and limb for a chance to worship God in their own way Focusing on the formative period of European exploration settlement and conquest in the Americas from roughly 1500 to 1760 Empires of God brings together historians and literary scholars of the English French and Spanish Americas around a common set of questions How did religious communities and beliefs create empires and how did imperial structures transform New World religions How did Europeans and Native Americans make sense of each other s spiritual systems and what acts of linguistic and cultural transition did this entail What was the role of violence in New World religious encounters Together the essays collected here demonstrate the power of religious ideas and narratives to create kingdoms both imagined and real **The Study of Time** J. T. Fraser,F. C. Haber,G. H. Müller,2012-12-06 The First Conference of the International Society for the Study of Time was held at the Mathematisches Forschungsinstitut at Oberwolfach in the Black Forest Federal Republic of Germany from Sunday 31 August to Saturday 6 September 1969 The origin of this conference and the formation of the Society goes back to a proposal due to J T Fraser that was discussed at a conference on Interdisciplinary Perspectives of Time held by the New York Academy of Sciences in January 1966 It was unanimously agreed that an international society should be formed on an interdisciplinary basis with the object of stimulating interest in all problems concerning time and that this object could best be attained by means of conferences held at regular intervals J T Fraser was

elected Secretary S Watanabe Treasurer and I was elected President It was agreed at my suggestion that the organization of the first conference of the newly formed Society be left to a committee of these three officers on the understanding that they would invite authorities on the role of time in the various special sciences and humanities to form an Advisory Board to assist them One of the main difficulties in seeking support for an interdisciplinary conference is that most foundations confine their interest exclusively either to the sciences or to the humanities

Reading Mennonite Writing Robert

Zacharias,2022-05-17 Mennonite literature has long been viewed as an expression of community identity However scholars in Mennonite literary studies have urged a reconsideration of the field s past and a reconceptualization of its future This is exactly what Reading Mennonite Writing does Drawing on the transnational turn in literary studies Robert Zacharias positions Mennonite literature in North America as a mode of circulation and reading rather than an expression of a distinct community He tests this reframing with a series of methodological experiments that open new avenues of critical engagement with the field s unique configuration of faith based intercultural difference These include cross sectional readings in nonnarrative literary history archival readings of transatlantic life writing Canadian rewritings of Mexican film s deployment of Mennonite theology as fantasy an examination of the fetishistic structure of ethnicity as a thing that has enabled Mennonite identity to function in a post identity age and finally a tentative reinvestment in ideals of Mennonite community via the surprising routes of queerness and speculative fiction In so doing Zacharias reads Mennonite writing in North America as a useful case study in the shifting position of minor literatures in the wake of the transnational turn Theoretically sophisticated this study of minor transnationalism will appeal to specialists in Mennonite literature and to scholars working in the broader field of transnational literary studies
