

"An incendiary and uproarious work of learned polemical writing, unique in its scientific sophistication and authority. Rather than criticizing science from the outside, Berlinski excoriates its atheist pretensions from within."

Faithful Science Alistair J. McKitterick, 2022-03-17 This thesis studies the impact of teaching intelligent design to evangelical students Science is often presented as a reason why some find sharing their faith difficult in a secular culture teaching the science of intelligent design enables Christians to initiate conversations and overcome obstacles with those whose worldview is more Darwinian and materialist The professional doctoral research employs both action research and practical theology Lin Norton's pedagogical action research provides the structure for the qualitative research and thematic analysis showing that students find learning about intelligent design empowering for evangelism Richard Osmer's model of practical theology enables an interdisciplinary reflection on how intelligent design challenges Western secular culture Intelligent design is seen as the most integrative of all the different ways of relating science and theology Theologically teaching intelligent design is like teaching a modern parable to contemporary society and just like the Gospel parables some respond with faith and some reject it Evangelical students find learning about it both liberating and empowering in their ability to share their faith more confidently with others especially in schools and youth groups

The Grace Effect Larry Alex Taunton, 2011-11-14 Simply defined the grace effect is an observable phenomenon that life is demonstrably better where authentic Christianity flourishes What does Christianity give us beyond televangelists potlucks and bad basketball leagues Not much according to the secular Left The world they say would be a better place without it Historian and Christian apologist Larry Taunton has spent much of his career refuting just this sort of thinking but when he encounters Sasha a golden haired Ukrainian orphan girl whose life has been shaped by atheistic theorists he discovers an

unlikely champion for the transforming power of grace Through the narrative of Sasha s redemption we see the false promises of socialism the soul destroying influence of unbelief and how a society cultivates its own demise when it rejects the ultimate source of grace We see in short the kind of world the atheists would give us a world without Christianity cold pitiless and graceless And yet as Sasha shows us it is a world that is not beyond the healing power of the grace effect Occasionally infuriating often amusing but always inspiring The Grace Effect will have you cheering for the courageous little girl who shamed the academic elitists of our day Endorsements In The Grace Effect Larry Taunton s deeply moving and personal story of how his family adopted a Ukranian girl we behold the staggering contrast between a culture suffused with Christian faith and one that has utterly rejected it Atheists must assiduously avoid exposure to stories like this one If you ve ever been unsure of how much good Christianity does in the world read this book Eric Metaxas New York Times Best selling author of Bonhoeffer Pastor Martyr Prophet Spy This highly readable book is a collection of powerful insights into the long term consequences of spiritual indifference and above all a remarkable example of how to conquer it Dr Olivera Petrovich research psychologist University of Oxford What would a world without Christianity look like We don t have to guess because such a world does exist it exists in the current and former Communist bloc Through the inspiring story of a little girl born in Eastern Europe and now living in America Larry Taunton draws a sharp contrast between the life giving influence of Christianity and the worn out theories of atheism and radical secularism The effect The Grace Effect is nothing less than powerful and moving Dinesh D Souza former White House policy analyst fellow of the Hoover Institute at Stanford University and current president of Kings College Authentic Communication Tim Muehlhoff,Todd Lewis,2010-02-25 What could be more natural more human than communication But we all learn quickly enough that good communication is not always natural There is much to learn from Scripture and from the academic study of human communication In this book Tim Muehlhoff and Todd Lewis are able guides aiding us in understanding the broad field of human communication in Christian perspective **Is Reality Secular?** Mary Poplin,2014-01-02 What is the nature of reality What does it mean to be human And how do we account for ethics and morality Mary Poplin examines naturalism humanism pantheism and Judeo Christian theism and explores the fundamental assumptions and limitations of each perspective **Politics without Stories** David Ricci,2016-10-27 Conservatives use great stories to prescribe government policy Liberals engage the world via science and pragmatism rendering liberalism less inspiring This book examines this difference *Seyyed Hossein Nasr's Ecological Ethics* Muzzamel Hussain Imran,2023-12-02 The book explores the profound insights of Seyyed Hossein Nasr an Islamic scholar on the ecological crisis and its underlying causes Nasr argues that the dominance of scientism which prioritizes contemporary science as the sole source of knowledge has led to a destructive relationship between humans and nature He proposes that restoring the religious perspective is crucial for finding a lasting solution to the ecological problem The book delves into Nasr s comprehensive body of work covering diverse subjects such as Islamic philosophy Islamic art Islamic

science Sufism and the ecological crisis Nasr's approach advocates for a holistic and inclusive philosophy that draws inspiration from the perennial philosophy and the principles of Islam He emphasizes the importance of reconnecting with our spiritual heritage and rediscovering reverence for the natural world The book also discusses the relevance and applicability of Nasr's ideas to non Islamic cultures and societies This is a unique study into the work of an important Islamic scholar and ecologist The key audience includes scholars and researchers interested in Islamic philosophy environmental ethics and the intersection of religion and ecology
