Chess is 99% Tactics

\$29.95 U.S.

I strongly believe that tactics is a very important part of the game of chess. The conscientious study and application of tactical principles have helped my sisters and me a great deal throughout our careers. I absolutely agree with the well-known maxim: "Chess is 99% tactics."

This CD offers every type of tactical motif imaginable, from the most common back rank mates, pins, skewers, forks and the like up to and including some of the most beautiful and rare combinations. This is a tactical book that will prove exceptionally useful for a wide range of players, intermediate through master strength and even beyond. I can heartily give this book two thumbs up. It will help you develop and improve your tactical skills tremendously.

The ChessCafe Puzzle Book:

The ChessCafe Puzzle Sampler Karsten Müller, 2010-09-20 The ChessCafe Puzzle Books We are pleased to offer excerpts from three of the most popular chess books available today They are The ChessCafe Puzzle Books 1 and 2 by German grandmaster Karsten Müller and Book 3 also by Müller and in cooperation with Dutch international master Merijn van Delft All three books are available in both traditional hard copy and electronic editions The original books are published in figurine algebraic notation with Informant style evaluation symbols For this Puzzle Sampler we have converted the notation to simple English algebraic and replaced the Informant style evaluation symbols with text The ChessCafe Puzzle Book 1 combines clear discussions of tactical themes with over 600 well chosen positions to test challenge and teach Although the classic combinations are not ignored the great emphasis is on positions from modern tournament practice of the last decade From CCPB1 four puzzles with different tactical themes please note that the actual numbering of the puzzles has been changed for this Kindle edition It is Black to move in Puzzles 1 and 2 White to move and Puzzles 3 and 4 Solutions are immediately after the four puzzles The ChessCafe Puzzle Book 2 takes on the more difficult and less tangible aspect of positional play As most chess instructors and players know it is much more difficult to teach and learn strategic concepts than tactics The author not only presents puzzles to solve but also presents examples of different strategic ideas Here is an excerpt from the section about Outposts One of the most important skills a chessplayer needs is the ability to defend a position that is under siege In the third volume in the highly acclaimed best selling ChessCafe Puzzle Book series international grandmaster Karsten Müller along with international master Merijn van Delft examines and expounds upon the vital defensive concepts and techniques used to repulse enemy attacks From CCPB3 three puzzles with different themes please note that the actual numbering of the puzzles has been changed for this Kindle edition It is Black to move in all three puzzles Solutions are immediately after the three puzzles

The ChessCafe Puzzle Book 1 Karsten Müller, Susan Polgar, 2010-08-26 This very instructive book combines clear discussions of tactical themes with over 600 well chosen positions to test challenge and teach Although the classic combinations are not ignored the emphasis here is on positions from modern tournament practice of the last decade Tactics is a very important part of the game of chess and conscientious study and application of tactical principles is crucial to success This book offers every type of tactical motif imaginable from the more common back rank mates pins skewers forks up to and including some beautiful and rare combinations This tactical book will prove exceptionally useful for a wide range of players intermediate through master strength and beyond

The ChessCafe Puzzle Book 3 Karsten Müller, 2010-08-26 Defend to the End One of the most important skills a chessplayer needs is the ability to defend a position that is under siege In this third volume in the highly acclaimed best selling ChessCafe Puzzle Book series International Grandmaster Karsten Müller along with International Master Merijn van Delft examine and expound upon the vital defensive concepts and techniques used to repulse enemy attacks Major topics include 1 Principles

and methods of defending 2 Defending against a direct attack on the king 3 Countering the initiative 4 Saving the draw 5 Passive versus active defense and 6 Use and development of counterplay Many of the world's greatest players Steinitz Lasker Petrosian were famous for their legendary defensive skills Now International Grandmaster Karsten Müller along with International Master Merijn van Delft will show you how you can Test and Improve Your Defensive Skill **The ChessCafe Puzzle Book 2** Karsten Müller, 2010-08-26 German Grandmaster Karsten Müller combines clear discussions of tactical themes with over 600 well chosen positions to test challenge and teach Although the classic combinations are not ignored the great emphasis is on positions from modern tournament practice of the last decade From the Author's Preface When coaching young players I have always given them a set of tactical exercises as homework like my trainers did when I was young I have benefited greatly from this and still do I have decided that it is best to sort the tactics by motifs first This will help your pattern recognition an extremely important skill I strongly believe that tactics is a very important part of the game of chess the conscientious study and application of tactical principles have helped my sisters and me a great deal throughout our careers I absolutely agree with the well known maxim Chess is 99% tactics This book offers every type of tactical motif imaginable from the more common back rank mates pins skewers forks and the like up to and including some of the most beautiful and rare combinations This is a tactical book that will prove exceptionally useful for a wide range of players intermediate through master strength and even beyond I can heartily give this book two thumbs up It will help you develop and improve your tactical skills tremendously From the Foreword by Women's World Champion International Grandmaster Susan Polgar **The ChessCafe Puzzle Book** Karsten Müller, 2004 [The ChessCafe Puzzle Book](#) Karsten Mueller, Merijn van Delft, 2010 Defend to the End One of the most important skills a chessplayer needs is the ability to defend a position that is under siege In this third volume in the highly acclaimed best selling ChessCafe Puzzle Book series International Grandmaster Karsten Mueller along with International Master Merijn van Delft examines and expounds upon the vital defensive concepts and techniques used to repulse enemy attacks Major topics include 1 Principles and methods of defending 2 Defending against a direct attack on the king 3 Countering the initiative 4 Saving the draw 5 Passive versus active defense and 6 Use and development of counterplay Many of the world's greatest players Steinitz Lasker Petrosian were famous for their legendary defensive skills Now International Grandmaster Karsten Mueller along with International Master Merijn van Delft will show you how you can Test and Improve Your Defensive Skill **The Chess Puzzle Book 2** Karsten Müller, 2008 A unique instructional chess book that aims to help intermediate and advanced players improve their command of one of the most difficult aspects of playing chess strategy It does so by offering a large number of examples carefully selected by the author German grandmaster Karsten Müller While there are many books and software programs available to assist chess players in improving their tactical ability there are relatively few that focus on strategic and positional considerations And as most chess instructors and players know it is much more difficult to teach and learn strategic concepts than tactics Topics

include Good and Bad Bishops Domination Outposts Undermining Opening the Position Blockade Improving Piece Placement Prophylaxis A Second Front and The Principle of Two Weaknesses Counterplay Positional Exchange Sacrifice Simplification and Weak Color Complex along with targeted exercises The Chess Puzzle Book 4 Karsten Mueller,Alex Markgraf,2012-12-05 Welcome to The Chess Puzzle Book 4 It mostly deals with the important technical question of how to convert a static advantage As noted by Mark Dvoretsky in his Foreword I cannot think of any books with high quality exercises regarding such topics as domination the do not hurry principle the principle of two weaknesses etc all of which are discussed by M ller and his co author Alexander Markgraf I hope that you enjoy this new book by M ller and Markgraf and I encourage you to seriously study the positions discussed in the book As a result you will significantly progress in your understanding of chess and improve your results Topics include Prophylaxis The Principle of Two Weaknesses The Right Exchange Domination Do Not Rush and Converting an Advantage There are also many well chosen exercises with comprehensive solutions to help guide and instruct the reader The Chess Puzzle Book 4 is the fourth volume in the series formerly known as the ChessCafe Puzzle Books Lasker's Manual of Chess Emanuel Lasker,2010-08-26 Lasker s Manual of Chess is one of the greatest chess books ever written The fact that it was first published over 80 years ago has diminished neither its relevance nor significance in today s modern chess world Lasker was both a wonderful fighter and a deep thinker his book is the quintessence of the exceptionally successful experiences he had over many long years and his thoughts about them He teaches what he himself considers most important general principles and methods applicable to any situation Once you have read the Manual you will become smarter afterwards this is bound to help you both in chess and in life Emanuel Lasker the Second World Champion begins at the most basic level explaining the board the pieces how they move and then goes on to describe the fundamentals of chess strategy chess tactics and even chess philosophy The result is one of best chess books ever written This 21st Century Edition has been supplemented with dozens of archival photographs of Lasker and his contemporaries In addition an entertaining and instructive feature Lasker Lore highlights the chess history and trivia of the Lasker era Finally if the significance of Lasker s Chess Manual needed to offer more the greatest chess instructor of the modern era Mark Dvoretsky has penned a special foreword to this new edition of the legendary classic *Studies for Practical Players* Mark Dvoretsky,Oleg Pervakov,2011-02-22 Nowadays chessplayers spend almost all their free time preparing openings and rarely spend the time necessary to perfect the vitally important technique of calculating Regular training in solving and playing out endgames studies is a good recipe for eliminating that shortcoming This training is directed at developing resourcefulness fantasy in chess these qualities are called combinative acuity and the readiness to sacrifice material in pursuit of the goal winning How do we develop good habits of winning endgame play There are lots of manuals but this may be the first in which a famous practical player a trainer with a world renowned name and a study composer who has earned the title of International Grandmaster of Composition share their views in one and the same book

Miniatures in the Sicilian Najdorf Carsten Hansen, 2016-06-13 INSTRUCTIVE NAJDORF MINIATURES An opening book based only on miniatures Perhaps it sounds odd at first but it works well in the sharp Najdorf and even in the more positional Queen s Indian Defense As usual Carsten s theoretical coverage is thorough and the books are not repertoire based but gives a full examination of these topical openings Is it limiting only to show miniatures Maybe but one somehow get the purified version of a successful strategy when the games are not complex battles but a slam dunk Grandmaster Peter Heine Nielsen Coach Second to World Champion Magnus Carlsen The purpose of the book is to entertain and educate you The entertainment consists of 100 main games all of which are 25 moves or less In addition to the main games you will find miniatures included in the notes along with many other complete games The education part involves solving tactical puzzles reasoning your way to the right move spotting combinations and studying the theory associated with these lines While the theoretical coverage may not necessarily be as deep as in opening monographs or repertoire books there s usually more than enough to give you a good understanding of the particular line making it easier for you to incorporate it into your opening repertoire We have also tried to include some key alternatives with analysis to give you an idea of other possibilities for both sides As for the games they are typically between players with a rating of at least 2350 and in fact are often stronger However we have made some exceptions to this guiding principle when a lower rated player beats a player rated above the

magical 2350 number So that the performances of the players may be evaluated better their ELO ratings have been included The subject of this book is the Najdorf Sicilian which arises after 1 e4 c5 2 Nf3 d6 3 d4 cxd4 4 Nxd4 Nf6 5 Nc3 a6 The Najdorf has been and continues to be a tremendously popular opening at all levels It is sharp unbalanced with many theory laden lines and fun The main lines after 6 Bg5 e6 7 f4 are steeped in theory making them tricky to play especially for players with limited time to study

Music and Chess Achilleas Zographos, 2017-11-03 A Most Fascinating Journey It has long been recognized that there are only three major areas of human endeavor which produce prodigies music chess and mathematics This does not occur by happenstance There are links on many levels Now for the first time Music and Chess Apollo Meets Caissa examines the yet unexplored relation of chess to music Mathematics is a main common denominator a fact that is highlighted accordingly The thesis of this extraordinarily researched book is that chess is art in itself It can create art and is strongly related to mathematics and music As becomes clear this relationship has already been introduced by some legendary players such as Mikhail Tal and Vladimir Kramnik Great artists such as John Cage Marcel Duchamp and Arnold Sch nberg to name but a few have also been fascinated by the very same idea Surprisingly this has not been explored in detail so far only some sporadic articles exist by authors specializing in either music or chess There are chapters that address issues which are specialized in chess and music while others cover related issues of general social and artistic nature Music and Chess Apollo Meets Caissa can be appreciated by readers who have a good general though non specific background in both fields That is no technical knowledge of music is required with the only prerequisite to fully appreciate the text being the understanding of standard chess rules The text could be equally enlightening to students of music or mathematics as an added intellectual insight into these two disciplines The text is supplemented by many chess diagrams charts and over 50 full color images So turn on the music set up chessboard get out the calculator and let the author take you on a most fascinating journey that is Music and Chess Apollo Meets Caissa

Recognizing Your Opponent's Resources Mark

Dvoretsky, 2015-09-04 Know Thy Enemy Sun Tsu The Art of War Understanding what your opponent is planning to do or trying to accomplish is one of the core skills required to take your game to the next level Viktor Kortchnoi once wrote Well if you do not check what your opponent is doing you will end up complaining about bad luck after every game This book consists of four chapters all associated with the ability to think not only for yourself but also for your opponent to put yourself in his place In this book renowned author and chess trainer Mark Dvoretsky supplies the reader with high quality material for independent training Each chapter starts with a short theoretical section Then dozens of exercises are given from easy even elementary to difficult Training your skills in searching for a move and calculating variations will help you at all stages of the game which is why among the almost 500 exercises there are opening middlegame and endgame positions Finally the comments in the Solutions are quite detailed Throughout the book the author has tried to set forth the logic of the search for a solution to show how a player can come to the right conclusions at the board Recognizing Your Opponent's Resources is

virtually unique in chess literature And Sun Tsu would surely have approved [My Best Games of Chess 1905-1954](#) Savielly Tartakower,2015-01-30 The Unique Genius of Tartakower One of the most creative grandmasters ever to play the Royal Game was Savielly Tartakower His combination of bold play and fascinating writing has long endeared him to chess aficionados worldwide His classic work of best games has never been available in English algebraic notation Until now Tartakower's annotations are unlike any other master of his time He repeatedly stressed the psychological nature of chess for example Another Tartakowerism is An attack is against a castled position weak pawns and most of all against the mind of the opponent What he reserves for a footnote like what conditions are present to make a game a work of art other authors would need pages to articulate if they addressed the matters at all This book was meant to do what all great annotations do instruct explain and entertain And it succeeds spectacularly Andy Soltis in his Foreword Experience the unique genius of Savielly Tartakower in this 21st Century Edition of his games collection 201 games 49 game fragments all deeply annotated and quintessentially Tartakower *For Friends and Colleagues* Mark Dvoretsky,2015-08-06 The Journey Continues Mark Dvoretsky has long been considered one of the premier chess coaches and trainers in the world He is renowned for taking talented masters and forging them into world class grandmasters and champions His literary achievements are also quite distinguished For example Dvoretsky's Endgame Manual now in its fourth edition established itself as the sine qua non of endgame theory from the moment it appeared over a decade ago In this second volume of his highly acclaimed autobiographical work the author focuses on his early development as a player issues which challenge chess coaches as well as varied topics related to improving one's play Whether you are a player coach fan or passionate aficionado you will find this second volume as enjoyable and enlightening as the first Here's what the critics had to say about Volume 1 Volume 1 is an insightful glimpse into the mind of one of the strongest coaches in any sport ever to walk the face of the earth I can't recommend this book highly enough especially for students of chess history Chris Wainscott ChessIQ.com If you are interested in a first hand account of some very important events and persons in chess history it's hard to find a better book than this one Few have influenced modern chess like Dvoretsky has and Profession Chess Coach reads like his valedictory address John Hartmann in the January 2015 issue of Chess Life **ChessBase Complete** Jon Edwardsd,2014-07-23 ChessBase Step by Step There's a general recognition among chess players at all levels that the ChessBase software application is critical for serious chess improvement but many chess players are intimidated by the software Now for the first time former U.S. correspondence champion Jon Edwards has created real life scenarios that focus upon why the software is so important for chess players of every class along with clear explanations of how to use ChessBase The author will show you how with ChessBase 1 Opening preparation is quick comprehensive fully up to date and effective 2 You can quickly locate and review important games in every opening middlegame type and endgame 3 You can instantly see what worldwide engines think about most opening and many middlegame positions 4 You can instantly see where you and your opponents

erred 5 You can reliably prepare chess books for publication in print or on the web And much much more There is in fact no aspect of using ChessBase which Edwards does not cover It is all here and all in one volume Know simply that ChessBase is instrumental to every aspect of chess This book explains how the software can help you to improve your play your learning your teaching your writing or simply your love of and enthusiasm for the game Jon Edwards explains all that you will need to know with concrete examples and simple instructions After that how strong a chess player how good a chess teacher how good a chess author you become is truly up to you Note ChessBase 12 is featured in this book The new ChessBase 13 will be available near the end of 2014 ChessBase has confirmed that the program features and interface described within this book are not expected to change

Wilhelm Steinitz Isaak Linder, Vladimir Linder, 2014-09-08 The World Chess Champion Series The first official world champion Wilhelm Steinitz was a towering figure in the chess world in the last quarter of the 19th century For nearly three decades he never lost a serious match His opening innovations have resonated for more than a century For example for those who do not wish to meet the Ruy Lopez with 3 a6 the Steinitz Defense 3 d6 may still be one of the best ways to meet the Spanish Torture In the early 1870s he formulated a positional approach that served as the foundation of modern chess And his pioneering work on chess theory has been a major enduring influence since it was postulated Moreover if we think of his achievements as a writer not just as a player Steinitz was unique Few authors before or since even come close And none of his great successors could match his versatility and output Isaak Linder is regarded as one of the preeminent chess historians of the modern era He is the author of many books including the widely acclaimed books in the World Chess Champions Series Vladimir Linder is one of the best known sport journalists in Russia He is also the co author with his father Isaak Linder of many books including the widely acclaimed books in the World Chess Champion Series

My Best Games of Chess Alexander Alekhine, 2013-04-17 The Genius of Alekhine In chess literature there have only been a very few chess books that have immediately and permanently established themselves as classics Lasker's Manual of Chess by Emanuel Lasker Masters of the Chessboard by Richard Reti and Dvoretsky's Endgame Manual by Mark Dvoretsky are three that come to mind There are of course others among them My Best Games of Chess 1908 1937 by the fourth world chess champion Alexander Alekhine The original English edition published three quarters of a century ago used English descriptive notation contained one photograph no crosstables and was released in two separate volumes This new 21st century edition presented with modern algebraic notation has combined both books into a single volume added more than three dozen archival photographs crosstables Alekhine's complete match and tournament records a foreword by Russian grandmaster Igor Zaitsev as well as many more diagrams A comprehensive computer assisted analytical supplement has also been prepared and is available for download at no extra charge so that if you wish you may compare Alekhine's impressive notes with the preferences of the silicon monster Whether you feel as if you are revisiting an old friend or being introduced to this splendid game collection for the first time you will marvel at how Alekhine's games and works remain in many respects

extraordinarily consonant with the modern approach And you will not fail to be impressed by the genuine genius that is Alekhine Carlsen-Anand 2013 Karsten Müller,2014-07-31 Magnus Carlsen Becomes World Champion It was the match that the chess world had been anticipating for several years Norway's wunderkind Magnus Carlsen had qualified as the official challenger for the world chess championship He was facing the reigning world champion Viswanathan Anand from India Would Anand's enormous match experience and years at the top be enough to stop the young Norwegian grandmaster Magnus was heavily favored and he did not disappoint With the help of German grandmaster Karsten Müller you can follow as the drama of the match played out in Chennai India He has annotated every game providing insight into the battle for the title To complement the author's presentation grandmaster Susan Polgar the oldest of the famous Polgar sisters shares her thoughts about the match in her foreword She was there for the entire struggle providing coverage for the Indian organizers and media Also included is a short history of the world chess championship as well as color photos taken during the match All in all this is another fine book on the world chess championship by Karsten Müller
