Coming Out of the Illusion Christopher Link, 2020-04-13 There comes a time when being terribly lost without a clue and having the proverbial black cloud over one's head must come to an end It doesn't matter how screwed up your life has been with a rough childhood or now as an adult I have learned that our life experiences no matter how terrible don't have to shape who we are or who we become For instance I personally was in and out of foster homes from about age four to eighteen I had to overcome tremendous obstacles to bring this book to you The number one lesson for everybody is When you get knocked down get up again and stand a little taller than you did before until your foundation is unbreakable Something More where is it I think everybody at one point or another has asked themselves this Looking up at the stars in wonderment at a very young age is where it all begins All beings are aware of their surroundings and figure out really quickly something is wrong here on this beautiful planet Earth There are plenty of indicators such as Violence and war domination and hate racial profiling and human suppression working for survival and fighting over resources and or the need for money debt creation These things are part of our collective third dimensional consciousness and are no longer necessary as we advance mature together So what are we looking for What is the true reality How can we better ourselves How do we awaken to and find our true self again Where is the love joy grace

morals compassion unity we know are the truth behind this existence The most important question for us all to ask ourselves is How do we break through the false reality that we have created for ourselves and the planet and keep our light shining never to be hidden under veils of illusion again We will explore this thing called life through our own self realization together and find some answers to these questions

Frontiers of Knowledge: Scientific and Spiritual Sources for a New Era Douglas Kinney,2014-06-06 Frontiers of Knowledge is the story of unfolding developments that are revolutionizing our understanding of ourselves and our place in the universe We are birthing a new era in which our ideas about the nature and source of reality are swiftly changing Insights from quantum physics suggest that the basis of our physical world is actually mental conscious thoughts Other discoveries are causing us to redefine our concepts of mind and the elusive thing we call consciousness All strongly hint that spirituality is the underlying source of everything Frontier scientists and scientifically trained researchers are providing us with a rich and expanding base of knowledge through systematic investigations of startling phenomena that have been observed in quantum physics cosmology biology psychology disease and healing death near death experiences reincarnation experiences and those occurring in spiritual hypnosis on the nature of the spiritual realm New concepts of reality are especially needed to explain the incredibly finetuned characteristics and the mysterious nature of our physical universe Ninety five percent of the universe s energy and mass are a mystery to scientists and for the moment we resort to naming them dark matter and dark energy The last time a comparable knowledge revolution occurred was in the late sixteenth century when astronomers determined that the planets revolved around the sun not the earth Historians call it the Copernican Revolution because it led to modern Western science From one perspective the new era predicted in this book a revolution in its own right can be considered the completion of the quantum revolution by defining and explaining the role of consciousness in our universe An underlying aspect of this new revolution is the sense that humanity is moving into a new era of rapidly expanding knowledge of the human spirit our soul aspect and non physical realities Until now this emerging knowledge has not been organized into a coherent and comprehensive structure Frontiers of Knowledge provides the first outline of this new structure of reality

The Search for Hidden, Sacred Knowledge Dolores Cannon,2014-12-21 Many of us lived previous lives as keepers of sacred knowledge that was taught in the ancient mystery schools Much of this knowledge was lost through time due to disasters and destruction or death The knowledge was reserved for a select few who devoted their lives to understanding and teaching it

Odyssey of an Airhead Malgorzata Duszak,2010-05-19 The book is

written as a journal by a naive Catholic girl from Poland as she is thrown into the world where she discovers herself in the spiritual maze of beliefs and concepts She goes through life as it presents her with new experiences and she makes her way through them in the incessant longing to know and understand more She doesn't offer dry facts of what she discovers and believes she doesn't attempt to tell the readers what the truth is or what reality is all about She innocently and eagerly asks questions but not necessarily always gives the answers She is not anyone's teacher but through her personal odyssey spanning a period of about eight years she compels the casual reader to think just a little less casually The embracement of all human encounters philosophies and ways of living remains her key to the higher understanding of the experience of life Although perceived as an airhead by some she enthusiastically takes us through simple but large ideas the religious and spiritual concepts the humanity developed to explain the inexplicable Through her philosophical and esoteric growth the reader feels accompanied on their own inner search Being a part of life's journey toward the Absolute and going at the same time through the ordinary human experience full of pain and emotions qualifies anyone to talk about what unfolds along their way This time the journey is hers and she invites everyone to join
