Sherman, Stacey Goguen, 2019-06-28 Prejudice influences people s thoughts and behaviors in many ways it can lead people to underestimate others credibility to read anger or hysteria into their words or to expect knowledge and truth to sound a certain way or to come from a certain type of person These biases and mistakes can have a big effect on everything

from an institutional culture to an individual's self understanding. These kinds of intellectual harms are known as epistemic injustice. Most people are opposed to unfair prejudices at least in principle and no one wants to make avoidable mistakes. But research in the social sciences reveals a disturbing truth. Even people who intend to be fair minded and unprejudiced are influenced by unconscious biases and stereotypes. We may sincerely want to be epistemically just but we frequently fail and simply thinking harder about it will not fix the problem. The essays collected in this volume draw from cutting edge social science research and detailed case studies to suggest how we can better tackle our unconscious reactions and institutional biases to help ameliorate epistemic injustice. The volume concludes with an afterword by Miranda Fricker who catalyzed recent scholarship on epistemic injustice reflecting on these new lines of research and potential future directions to explore.

The Abolition of Prison Jacques Lesage de La Haye, 2021-07-13. The Abolition of Prison provides a reflection from a longtime prison abolitionist psychoanalyst and former prisoner on the history, theory, and practice of anti-prison activism in France and globally over the last fifty years. This book powerfully makes the case for the end of prisons, punishment, and guilt and instead suggests we work towards social change, care, and collectivity. The book weaves together Lesage de La Haye's own experiences in prison as a psychiatrist and as a social theorist with the simple argument that if we take the reasons for prison and punishment at their word, we must evaluate the system as a complete failure. So then why continue to support it and funnel money into it?

Manifesto Dale Vince, John Robb, 2020-11-26. Revealing, inspiring, and funny. This book is a joy to romp through, which is good because its final chapter is the important truth we all need to hear and understand if we are to survive this mess we've made. Chris Packham. This is the story of a man whose unwavering journey to save the environment has driven him all the way to the top and a powerful manifesto for anyone who wants to change the world. Dale Vince has led a remarkable life. From enemy of the state to green energy tycoon, he has dedicated his life to challenging conventional wisdom in pursuit of a better way to live. Dale kickstarted the now global green energy movement, helping to bring environmentalism into the mainstream. He pioneered the electric car, built the first Electric Highway to power them, and runs Forest Green Rovers, the world's first vegan football club. With a questioning mind that does not take no for an answer, Dale has spent his whole life striving for change. In his first book, Dale explores what must be done to win the battle for Green Britain. It's a manifesto of hope backed up by solutions from someone with real life experience of disrupting the energy industry and paving the way for a greener planet. This is a manifesto that is

changing the world The revised and updated version has a new chapter from Dale on why he decided to shift support from Just Stop Oil to Just Stopping The Tories why politics is the final frontier for a greener Britain and includes important links to register to vote and to get your ID sorted for the most important election of our generation

A Frontline Worker's Manifesto Daniel Oudshoorn, 2025-03-28 When journeying alongside those who are forcibly deprived of housing and shelter it is rare to find a frontline worker who has been in their position for more than a few years There is so much exploitation trauma and moral injury in this sector that the average rate of burn out is two years Thanks to the good company around me I have been able to sustain myself in this work for more than twenty five years Along the way I have paid special attention to those who are most excluded abandoned and oppressed by the very systems that claim to care for them I have critically and collaboratively reflected on my praxis over these years and in this book I draw together much of what I have learned so that others can start further ahead than I started
