The Crisis Of The Naval War:

The Crisis of the Naval War Earl John Rushworth Jellicoe Jellicoe, John Rushworth Jellicoe, 1920 *The Crisis of the Naval War: British Royal Navy in World War I* John Rushworth Jellicoe, 2018-02-09 This book presents the work accomplished by the Royal Navy in combating the unrestricted submarine warfare instituted by the Central Powers in February 1917 It is consequently largely concerned with the successive steps taken at the Admiralty to deal with a situation which was always serious and which at times assumed a very grave aspect The ultimate result of all Naval warfare must naturally rest with those who are serving afloat but it is only just to the Naval officers and others who did such fine work at the Admiralty in preparing for the sea effort that their share in the Navy's final triumph should be known Contents Admiralty Organization The Changes in 1917 Submarine Campaign in the Early Part of 1917 Anti submarine Operations The Introduction of the Convoy System The Convoy System at Work The Entry of the United States Our Naval Policy Explained Patrol Craft and Minesweeping Services The Dover Patrol and the Harwich Forces The Sequel Production at the Admiralty During 1917 Naval Work The Future **The Crisis of the Naval War** John Rushworth Jellicoe Jellicoe, 2018-08-13 *The Crisis of the Naval War* by John Rushworth Jellicoe Jellicoe It is perhaps as well that the nation generally remained to a great extent unconscious of the extreme gravity of the situation which developed during the Great War when the Germans were sinking an increasing volume of merchant tonnage week by week The people of this country as a whole rose superior to many disheartening events and never lost their sure belief in final victory but full knowledge of the supreme crisis in our history might have tended to undermine in some quarters that confidence in victory which it was essential should be maintained and in any event the facts could not be disclosed without benefiting the enemy But the position at times was undoubtedly extremely serious At the opening of the war we possessed approximately half the merchant tonnage of the world but experience during the early part of the struggle revealed that we had not a single ship too many for the great and increasing oversea military liabilities which we were steadily incurring over and above the responsibility of bringing to these shores the greater part of the food for a population of forty five million people as well as nearly all the raw materials which were essential for the manufacture of munitions The whole of our war efforts ashore as well as afloat depended first and last on an adequate volume of merchant shipping It is small wonder therefore that those who watched from day to day the increasing toll which the enemy took of the country's sea carrying power were sometimes filled with deep concern for the future Particularly was this the case during the early months of unrestricted submarine warfare in 1917 For if the menace had not been mastered to a considerable extent and that speedily not only would the victory of the Allies have been imperilled but this country would have been brought face to face with conditions approaching starvation In pre war days the possibility of these islands being blockaded was frequently discussed but during the dark days of the unrestricted submarine campaign there was ample excuse for those with imagination to picture the implication of events which were happening from week to week The memories of those days are

already becoming somewhat dim and as a matter of history and a guide to the future it is perhaps well that some account should be given however inadequate of the dangers which confronted the country and of the means which were adopted to avert the worst consequences of the enemy's campaign without ceasing to exert the increasing pressure of our sea power upon his fighting efficiency and without diminishing our military efforts overseas We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience

,2015-07-12 Excerpt from The Crisis of the Naval War Owing to the peculiar nature and demands of naval warfare but few dispatches corresponding to those describing the work and achievements of our great armies were issued during the progress of the war In a former volume I attempted to supply this defect in the historical records which will be available for future generations so far as the Grand Fleet was concerned during my period as its Commander in Chief The present volume which was commenced and nearly completed in 1918 was to have been published at the same time My departure on a Naval mission early in 1919 prevented me however from putting the finishing touches to the manuscript until my return this spring I hesitated as to the publication of this portion of what is in effect one complete narrative but eventually decided not to depart from my original purpose There is some reason to believe that the account of the work of the Grand Fleet gave the nation a fuller conception of the services which the officers and men of that force rendered in circumstances which were necessarily not easily appreciated by landsmen About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Crisis of the Naval War** John
