The Journey from Tollgate to Parkway Adrienne Shadd, 2010-12-14 When the Lincoln Alexander Parkway was named it was a triumph not only for this distinguished Canadian but for all African Canadians It had indeed been a long journey from the days in the 1880s when a Black woman named Julia Berry operated one of the tollgates leading up to Hamilton Mountain The Journey from Tollgate to Parkway examines the history of Blacks in the Hamilton Wentworth area from their status as slaves in Upper Canada to their settlement and development of community their struggle for justice and equality and their achievements presented in a fascinating and meticulously researched historical narrative Adrienne Shadd's original research offers new insights into urban Black history filling in gaps on the background of families and individuals while also exploding stereotypes of poverty and underachievement of early Black Hamiltonians For the very first time their contributions to the building and development of the city are heralded and take centre stage

Treaty No. 9 John Long, 2010 Restoring nearly forgotten perspectives to the historical record John Long considers the methods used by the government of Canada to explain Treaty No 9 to Northern Ontario First Nations He shows that many crucial details about the treaty's contents were omitted in the transmission of writing to speech while other promises were made orally but not included in the written treaty Reproducing the three treaty commissioners' personal journals in their entirety Long reveals the contradictions that suggest the treaty parchment was never fully explained to the First Nations who signed it pub website

Harold Innis on Peter Pond William J. Buxton, 2020-02-06 Best known for his writings on economic history and communications Harold Innis also produced a body of biographical work that paid particular attention to cultural memory and how it is enriched by the study of neglected historical figures In this compelling volume William Buxton addresses Innis's engagement with the legacy of the

fur trader and adventurer Peter Pond Harold Innis on Peter Pond comprises eight texts by Innis including his 1930 biography of Pond as well as his writings on the explorer's myriad activities The book also features a collection of eight letters exchanged between Innis and Florence Cannon a descendant of Pond with a strong interest in her ancestor's life and times and an unpublished 1932 article on Pond's 1773-75 activities as a fur trader on the upper Mississippi written by Innis's former student R Harvey Fleming Situating Innis's writings on Pond in relation to his broader body of biographical work Buxton interprets what these texts tell us about Innis's intellectual practice historiography and the writing of biography The book explores how Innis's perspectives shifted with changing intellectual and political circumstances and shows that his advocacy of Pond as an unrecognized father of confederation challenged conventional views of Canadian nation building A critical edition of previously overlooked biographical texts Harold Innis on Peter Pond traces what these writings disclose about the biographer's character and values even as they discuss their subject *Newmarket* Robert Terence

Carter, 1996-07-26 In the early 1800s Timothy Robers a Quaker millwright from Vermont drew a flourishing community of fellow Quakers to the area which became the new market for settlers and traders It soon became the commercial hub of a rich farming area By the mid 1800s it was a central point on the Ontario Simcoe and Huron Railway Over the following decades gas deposits were confirmed there and a barge canal was built along with a street railway In the early 20th century Newmarket languished through a long period of slow growth wars and the Depression took a terrible toll on the small town Yet in the 1940s it was another war that brought thousands of soldiers to Newmarket's training camp on their way to battlefields in Europe It took the 1960s to bring real prosperity builders began developing the inexpensive land industries came and the town flourished The pace of construction continued through the 1980s as Newmarket prepared for its busy life of today **A new theory of value** Robin Neill, 1972-12-15

Continuing problems in the Canadian economy have been the occasion of a partisan debate between nationalists and continentalists both of whom claim the staples thesis to be the premise of their proposed solutions As one of the principal progenitors of that premise Harold Innis contributed much to the roots of this debate and its present flowering cannot be understood apart from what he had to say This is an account of the Canadian problem as it was elaborated in the staples thesis of H A Innis But it is more than that In order to cope with the economics of a satellite country in the age of machine and post machine industry Innis found it necessary to fill in the empty boxes of neoclassical value theory and at times to make new ones when the standard theory provided insufficient room to contain the facts of the case He went beyond price theory to come to grips with the unsolved problems of growth and to work out answers of his own The result was a new kind of economics based as was the economics of J M Keynes on the assertion of a new ethical foundation Unlike Keynes Innis was concerned with the long run for we can survive now only by understanding the coping with the long run consequences of past policies and given the right policies now the nation as a whole will live on Innis and Keynes are like two sides of a coin in the new issue of value theory We can flip that coin to see which policy will

come up or we can account for both sides in some sort of rational compromise A New Theory of Value is a plea for a rational approach to the problem **Genealogies in the Library of Congress** Library of Congress,1972 The Canadian Historical Review ,1935 Catalogue of the Public Archives Library Public Archives of Canada.
