Based on a collaboration between historians of Chinese and European politics Political Communication in Chinese and
European History 800 1600 offers a first comprehensive overview of current research on political communication in middle
period European and Chinese history The chapters present new work on the sources and processes of political
communication in European and Chinese history partly through juxtaposing and combining formerly separate
historiographies and partly through direct comparison Contrary to earlier comparative work on empires and state formation
which aimed to explain similarities and differences with encompassing models and new theories of divergence the goal is to
further conversations between historians by engaging regional historiographies from the bottom up **Primary Plans**

Czechoslovakism Adam Hudek,Michal Kopeček,Jan Mervart,2021-09-30 This collection systematically approaches the
concept of Czechoslovakism and its historical progression covering the time span from the mid nineteenth century to
Czechoslovakia s dissolution in 1992 1993 while also providing the most recent research on the subject Czechoslovakism was
a foundational concept of the interwar Czechoslovak Republic and it remained an important ideological political and cultural
phenomenon throughout the twentieth century As such it is one of the most controversial terms in Czech Slovak and Central
European history While Czechoslovakism was perceived by some as an effort to assert Czech domination in Slovakia for
others it represented a symbol of the struggle for the Republic s survival during the interwar and Second World War periods
The authors take care to analyze Czechoslovakism s various emotional connotations however their primary objective is to
consider Czechoslovakism as an important historical concept and follow its changes through the various cultural political
contexts spanning from the mid nineteenth century to the breakup of Czechoslovakia in 1993 Including the work of many of
the most eminent Czech and Slovak historians this volume is an insightful study for academic and postgraduate student
