Richard J. Bernstein and the Pragmatist Turn in Contemporary Philosophy J. Green, 2014-01-21 Richard J Bernstein who has played a leading role in the pragmatist turn in contemporary philosophy replies to twelve younger critics in a lively conversation about pragmatism's past, present and future as a guiding paradigm for philosophy and related fields

Jefferson's Revolutionary Theory and the Reconstruction of Educational Purpose Kerry T. Burch, 2020-05-27 This book newly interprets the educational implications of Thomas Jefferson's revolutionary thought. In an age where American democracy is imperilled and the civic purposes of schooling eviscerated, Burch turns to Jefferson to help bring to life the values and principles that must be recovered in order for Americans to transcend the narrow purposes of education prescribed by today's neoliberal paradigm. The author argues that critical engagement with the most radical dimensions of Jefferson's educational philosophy can establish a rational basis upon which to re-establish the civic purposes of public education. Bracketing the defining features of Jefferson's theory throughout each of the chapters, the author illuminates the deficiencies of the dominant educational paradigm and charts a new path forward for its progressive renewal.

Beyond the Boundaries Georgia A. Persons, 2017-09-29 In the past, African American aspirations for political office were assumed to be limited to areas with sizeable black population bases. By and large, black candidates have rarely been successful in statewide or national elections. This has been attributed to several factors: limited resources available to African American candidates or identification with a black liberationist ideological thrust. Other factors have been a relatively small and spatially concentrated primary support base of black voters and the persistent resistance of many white voters to support black candidates. For these reasons, the possibility of black candidates winning elections to national office was presumably just a dream. Conventional wisdom conceded a virtual cap on both the possible number of black elected officials and the level of elective office to which they could ascend. But objective political analysis has not always made sufficient allowances for the more universal phenomenon of individual political ambitions. The contributors to this volume explore the ways ambitious individuals identified and seized upon strategies that are expanding the boundaries of African American electoral politics. This volume is anchored by a symposium that focuses on new possibilities in African American politics. Both the electoral contests of 2006 and the Barack Obama presidential campaign represent an emergent dynamic in American electoral politics. Analysts are beginning to agree that the contours of social change now make the electoral successes of black candidates who are perceived as ideologically and culturally mainstream increasingly likely. The debate captured in this volume will likely inspire further scholarly inquiry into the changing nature and dimensions of the larger dynamic of race in American politics and the subsequent changing political fortunes of African American candidates.

The First Muslims Asma Afsaruddin, 2013-10-01 A fresh look at the origins and development of Islam, this is a fascinating reconstruction of the era of the first three generations of Muslims. Using a wealth of classical Arabic sources, it chronicles the lives of the Prophet

Muhammad his Companions and the subsequent two generations of Muslims together known as the the Pious Forebears Examining the adoption in contemporary times of these early Muslims as legitimizing figureheads for a variety of causes both religious and political Afsaruddin tries to establish where their sympathies really lay Essential reading for anyone interested in the inception of the Islam this important book will captivate the general reader and student alike **The Development of American Civilization, Grade 11; Contemporary Problems, Grade 12** Iowa.
