Nineteenth-Century Children's Books Jean Kommers, 2023-03-06 This literary analysis of the representation of Gypsies in juvenile literature is unique in its comparative scope as well as in the special attention to rare pre 1850 narratives the period in which juvenile literature developed as a specific genre Most studies on the subject are about one national literary tradition or confined to a limited period In this study Dutch English French and German texts are analysed and discussed with reference to main academic publications on the subject Emphasis is on the rich variation in narrative presentations rather than on an inventory of images or prejudices An important topic is the fundamental difference between early English and German narratives Important because of the wide dissemination of German stories **History Of The Indian Mutiny Of**

1857-8 - Vol. II [Illustrated Edition] Sir John William Kaye, 2014-06-13 Illustrated with over one hundred maps photos and portraits of the battles of the Indian Mutiny By 1857 British power in India had been largely undisputed for almost fifty years however the armies of the East India Company were largely recruited from the native people of India This inherent weakness would be exposed during the events of the Indian Mutiny of 1857 1858 as the Sepoy soldiers turned against their erstwhile British employers The events that led up to the Revolt were many and varied including British highhandedness ignorance of local customs and religious values and incendiary propaganda It is generally argued that the spark that lit the flame was the rumour that the newly issued rifle cartridges would be greased either with tallow derived from beef and thereby offensive to Hindus or lard derived from pork and thereby offensive to Muslims The enraged soldiers mutinied across a number of Indian States taking Delhi besieging Lucknow and revolting in Oudh The rebellion was eventually quelled in 1858 however the

effects of the Mutiny were far ranging and important The East Indian Company was dissolved and the British government set about reorganising all facets of its power in India from the political to the administration and most pointedly the military Although India would not gain its Independence until 150 years later the events of the Indian Mutiny stayed in the folk consciousness of the country a number of the leaders were lionized in certain circles and a measure of nascent nationhood was born Of the many books written on the event few are as well respected accurate frequently read or cited as the six volume history produced by two ex British Army officers Sir John Kaye and Colonel George Malleson who had both served extensively in India This second volume deals events from May 1857 to July 1857

Stray Pavements Sunny Hodge,2013-04-30 Stray Pavements begins with a family and ends at a boy Its a fabricated tale of growth and freedom in modern day society The setting is London city an uncertain environment for one married couple who have fled their exotic little island to seek a better life in Englands capital We begin with Sister mother of this makeshift family whom at an early age had her dreams of becoming a professional athlete curbed

and was decisively thrown into the confines of housewifery along with the torment of an abusive husband Time bides slowly and long days of work and tending to her husband leave her morose Soon her dysfunctional world is torn askew with the timely death of her first born so she decides to escape and whisks her only remaining child Didecan up in her arms to save him from a life she knew all too well Her new life finds her back on the running track With the help of an understanding and supportive coach she earns a solid reputation in her event soon competing for her new nation in the Commonwealth games Her running career thrives as does her understanding of other cultures around her and gracefully she matures to a woman and a mother that she can admire and respect All the while with Didecan growing up we start to see her world through his eyes and mood His mothers remarriage takes the family to a new house in a leafy suburb and leads Didecan onto the path of a structured education Throughout the course of this fiction we are challenged with stray thoughts and manifestations of consciousness they expel sporadically and without restraint cutting the plot into segments of memory Our closeness to Didecan varies and develops in time as he matures We follow him through differing depths of awareness and at times we the reader become a part of his conscious mind These blips of introversion or realisation if you wish which leak into the narrative are essential in understanding Didecans honest emotion Mandatory visits to his biological father every weekend only seek to mar his opinions on a culture his parents left behind them and in turn he proceeds to nurture a sense of animosity towards his father The early responsibilities and trust he became burdened with at adolescence have only differentiated him at school and a sense of not fitting in spurs him onwards to challenge himself as an individual Outside of his new found stability at school and home he wanders the streets with a companion from school The two steadily find themselves captivated by the art of rollerblading and the culture it breeds brought about by a generation of children who roam concrete corridors They walk a path riddled with crime and violence and learn what it means to feel free from the whims of society But these experiences age him and we draw rapidly nearer to his opinion as his awareness of the world grows Rigorous schooling taints his aspirations for wealth and prosperity for he seeks a greater sense of satisfaction within a city rife in falsified pleasure His struggle draws within that narrow margin of separation between the strict confines of inner city strife and juvenile urgings for independence Quickly he learns his boundaries on the streets a series of hard hitting altercations leaves him weary of the ruined path that lies ahead so he turns his attention back to work and institution At university he starts to feel even more of the misfit he cant understand other students of his age and couldnt fathom why they strived so arduously to fit in He dwells on what it means to be an individual and ponders his fitting in the world realising that knowing what one definitely doesnt want to do is nowhere near as simple as realising what makes oneself content So with the help of a close friend he sets a deadline for himself thirty three years of age and within this time frame finds himself compelled to reach contentedness or hell simply end it He enjoys his working part time at his res
