The Committed Self An Introduction To Existentialism For Christians:

The Committed Self Victor A. Shepherd, 2015-01-03 The Committed Self is a clear and compelling introduction to Existentialism the root of Postmodernism and according to Victor A Shepherd still the most significant philosophy of our times Focusing on Hegel Kierkegaard Nietzsche Buber Heidegger and Sartre and their passionate commitment to the authenticity of the self Shepherd maintains that Existentialism has much to say to Christians with its understanding of What it is to be a human being How diverse forces operative in the world and in the psyche shape human self awareness The manner in which radical commitment forges and forms that self which is nothing less than a new birth Shepherd believes that an acquaintance with Existentialism will aid Christians in negotiating the minefield they think life has become And he persistently draws attention to the manner in which Existentialism recalls theology to its proper vocation whenever theology appears to be in danger of becoming a species of rationalism that uses religious vocabulary

Evangelical Calvinism Dr. Myk Habets, Bobby Grow, 2017-05-04 Continuing the discussion initiated in volume one volume two of Evangelical Calvinism further articulates the central motifs of this mood within Reformed theology by examining themes having to do with dogmatics and devotion After further clarifying the methodological and dogmatic aspects common to an Evangelical Calvinism the heart of the present volume is an explication of the vicarious ministry of Christ as it is worked out in its diverse theological dimensions The volume offers constructive accounts of various aspects of liturgy sacraments and doxology showing the vitality and lived spirituality of this Christian vision of faith and practice Both advocates and critics of Evangelical Calvinism now have an extended and thorough body of work with which to interact As with volume 1 this volume promises to set the agenda for contemporary and constructive Reformed studies in a way that provides an alternative to neo Calvinism and Westminster Calvinism alike

Irreconcilable Differences? Jason C. Robinson, David Peck, 2015-03-17 What if philosophy theology and science spent a little more time together These fields often seem at odds butting metaphysical heads Instead of talking at how about talking with one another This book engages three academic disciplines distinct yet sharing much in common in a

slice of conversation and community in which participants have aimed at validating the other and the way the other sees the world The result is a collection of essays united by a thread that can be hard to find in academia In bringing together a wide range of contributors on a project that at first seemed unlikely Irreconcilable Differences is also a testament to the spirit of cooperation and hard work evidence that small acts and events can make a big difference and that sometimes all you need in order to make something good happen is an idea with a little support along the way The editors of this collection are hopeful that its contributors and readers will keep looking for ways to bridge academic social and political gaps We need to forge relationships based on personal knowledge and proper confidence seeking to make meaningful claims in an increasingly complex world

Human Difference Andrew Barron,2024-08-06 Living in proximity to human disability with a son who has Down Syndrome Andrew Barron has come to understand that not only do we live in a world of human difference but that God wants us to live in this kind of world for our own flourishing Human Difference is an extended meditation on that experience and a reflection on the nature of human care and hospitality Barron seeks to understand and embrace the uncertainty that comes with living in proximity to difference and disability and reflects on how we might better cope with and ultimately be enriched by its ambiguity He undertakes a new approach to difference we must be ready to venture into uncomfortable territory to put out into the deep water and to actively seek out an intimate and open closeness with difference and disability

A History of Christian Theology, Second Edition William C. Placher,Derek R. Nelson,2013-10-03 A modern classic A History of Christian Theology offers a concise yet complete chronicle of the whole of

Christian theology from its background in the history of Israel to the liberation and postliberal theologies of recent years This updated 30th anniversary edition includes expanded treatments of theological developments at the end of the 20th century and preliminary trajectories for theology in the 21st century It also includes updated bibliographies and revised chapters on important innovations in biblical studies and their impact on theology This updated and revised edition will continue to aid the work of both students and faculty for years to come Introduction to Religious Philosophy Y. Masih,1991 This is a book with a clearly visible theme of Advaita That is not to say that Masih has not spoken of other things However this book is not an introduction to philosophy of religion but an introduction to religious philosophy Thus it escapes the narrow confines of being a mere introduction to religious philosophy as there are plenty of insights on philosophy of religion as well A striking aspect of this book is that the author not only believes but also calculates logically as to how the various insights of different religions must crossfertilise the visions of one another This exercise obviously demands a great deal of understanding of the various religious commitments The author quotes the example of Ramakrishna Paramahansa who suggested that there is something like religious unity and that one is capable of extending oneself beyond the limited confines of a single religion of the Supreme Spirit Thus understanding the Supreme Spirit as a concept is useful because it is in the nature of a concept that is shareable and communitable One appreciable part of the book is the sweep it has over the subject from Galloway and Martinieu to J N Findlay Hare Blik Kant Hastings Rashdall to McCloskey and Radhakrishnan the author has drawn from various thinkers **Existentialism: A Guide for the Perplexed** Steven Earnshaw,2006-01-01 Provides a clear introduction to the difficult topic of existentialism and offers suggestions for its relevance today Christian Philosophy Craig G. Bartholomew,Michael W. Goheen,2013-10-15 This third book in a series of successful introductory textbooks by Craig Bartholomew and Michael Goheen builds on their previous projects The Drama of Scripture and Living at the Crossroads to offer a comprehensive narrative of philosophical thought from a distinctly Christian perspective After exploring the interaction among Scripture worldview theology and philosophy the authors tell the story of philosophy from ancient Greece through postmodern times positioning the philosophers in their historical contexts and providing Christian critique along the way The authors emphasize the Reformed philosophical tradition without neglecting other historical trajectories and show how philosophical thought relates to contemporary life The Routledge Handbook of Contemporary Existentialism Kevin Aho,Megan Altman,Hans Pedersen,2024-04-18 Of the philosophical movements of the twentieth century existentialism is one of the most powerful and thought provoking Its engagement with the themes of authenticity freedom bad faith nihilism and the death of God captured the imagination of millions However in the twenty first century existentialism is grappling with fresh questions and debates that move far beyond traditional existential preoccupations ranging from the lived experience of the embodied self intersectionality and feminist theory to comparative philosophy digital existentialism disability studies and philosophy of race The Routledge Handbook of Contemporary Existentialism explores these topics and more connecting the

ideas and insights of existentialism with some of the most urgent debates and challenges in philosophy today Eight clear sections explore the following topics methodology and technology social and political perspectives environment and place affectivity and emotion death and freedom value existentialism and Asian philosophy aging and disability As well as chapters on key figures such as Kierkegaard Nietzsche Heidegger Sartre and Beauvoir the Handbook includes chapters on topics as diverse as Chicana feminism ecophilosophy and the environment Latina existentialism Black nihilism the Kyoto school and southeast Asian existentialism and the experiences of aging disability and death Essential reading for students and researchers in the areas of existentialism and phenomenology The Routledge Handbook of Contemporary Existentialism will also be of interest to those studying ethics philosophy and gender philosophy of race the emotions and philosophical issues in health and illness as well as related disciplines such as Literature Sociology and Political Theory

Frederick Douglass and the Philosophy of Religion Timothy J. Golden, 2021-12-06 Frederick Douglass and the Philosophy of Religion An Interpretation of Narrative Art and the Political addresses Douglass's narrative method and the reformed epistemology of analytic theism within the context of Incarnational theology Timothy J. Golden argues that in this context Douglass's use of narrative maintains a robust moral social and political engagement and thus a closer connection to an authentic Christian theology in a way that analytic theism does not To show this contrast Golden presents existential and phenomenological interpretations of Douglass reading him alongside Kierkegaard Kafka and Levinas Golden concludes the book with reflection on how Douglass's Incarnational theology connects to his future philosophical and theological work which understands consciousness subjectivity as saturated in time understood as history Golden argues that the resulting view of consciousness helps to overcome abstraction in a variety of philosophical subfields including jurisprudence and gender studies

The Freedom to Become a Christian Andrew B. Torrance, 2016-02-25 The Kierkegaardian account of becoming a Christian has come to be perceived in radically egocentric terms Torrance challenges this perception by demonstrating that Kierkegaard was devoted to the idea of Christian conversion as a transformative process of becoming This process is grounded in an active relationship initiated by the eternal God who has established kinship with us in time Torrance focuses on becoming a Christian as a particular theological theme that deserves further attention how becoming a Christian or Christian transformation should be construed in relation to God's initiating and active relationship to the person Torrance's account of Kierkegaard on human transformation demonstrates in striking ways Kierkegaard's relevance to current issues in systematic theology and philosophical theology around the nature of Christian conversion particularly how conversion might be reconceptualized in strong divinely relational and transformative rather than in progressive self-developmental terms This study also considers how Kierkegaard was able to negotiate his emphasis on the God relationship with his emphasis on the importance of individual reflection decision and action in the Christian life
