be trained to become a knowledge worker i.e. an engineer and a problem solver. The sales manager needs to think in terms of commitment and at the same time be able to comprehend and document the processes and workflow i.e. supply chain and value chain of the customer during his sales visits. Salesmanship is about relationship management i.e. relationship with internal and external customers, suppliers, contractors, agencies etc. Relationship brings us into politics. The sales manager needs to have situational awareness and be sensitive to the cultural factors present during the sales cycle. Salesmanship is about leadership i.e. the capacity to translate vision into reality. The sales manager is motivated and guided by principles i.e. he is a soldier and a gentleman. The sales manager being of strong character will be able to overcome adversity during sales without resorting to con schemes or misleading the customers. The book is a summary of the practical sales knowledge acquired over the last twenty years.
