The Detroit Almanac:

The Detroit Almanac Peter Gavrilovich, Bill McGraw, 2006 Detroit Almanac and Michigan Register for the Year 1838 ... , 1838 TW Index Volumes 1 and 2 Combined Jan Young, 2011-10-27 TW Index is a complete and detailed index of everything that has appeared in the SDC Turning Wheels magazine since its inception in 1972. Of greatest importance are the advice items that are indexed by subject: engines, brakes, steering, etc. model AND year, including all individual letters that appear in the Co Operator column. Historical items are also indexed by subject as well as by the vehicle model and year they relate to. If you own for instance a 1959 Hawk, TW Index will give you instant access to everything that has been published about your car and much more. Each listing of course refers you to the specific issue of Turning Wheels and cites the page on which the item begins. Rated excellent by Fred Fox and Bob Palma. Volume 1 of Turning Wheels Index includes issues of Turning Wheels from 1972 through 1992 with 10 711 references on 159 pages. Volume 2 includes 1993 through 2009 with 9 995 references on 158 pages.

Learning Race, Learning Place Erin N. Winkler, 2012-11-15 In an American society both increasingly diverse and increasingly segregated, the signals children receive about race are more confusing than ever. In this context, how do children negotiate and make meaning of multiple and conflicting messages to develop their own ideas about race? *Learning Race, Learning Place* engages this question using in-depth interviews with an economically diverse group of African American children and their mothers. Through these rich narratives, Erin N. Winkler seeks to reorient the way we look at how children develop their ideas about race through the introduction of a new framework: comprehensive racial learning that shows the importance of considering this process from children's points of view and listening to their interpretations of their experiences, which are often quite different from what the adults around them expect or intend. At the children's prompting, Winkler examines the roles of multiple actors and influences, including gender, skin tone, colorblind rhetoric, peers, family, media, school, and especially place. She brings to the fore the complex and understudied power of place, positing that while children's racial identities and experiences are shaped by a national construction of race, they are also specific to a particular place that exerts both direct and indirect influence on their racial identities and ideas.

Freedom by Any Means Betty DeRamus, 2009-02-03 Following up on Betty DeRamus's Essence bestselling *Forbidden Fruit*, *Freedom by Any Means* follows the story of extraordinary acts of courage and love by Blacks in the American slave era with beautifully written and inspiring stories of how slaves used the law against all odds to gain freedom for themselves and loved ones. In *Freedom by Any Means*, Betty DeRamus explains that much of what we think we know about African American history isn't completely true. Slave freedom isn't limited to the usual story: slaves gained

their freedom by running away being freed by their owners buying their way out of bondage or having someone else buy them But history doesn't account for the slaves who bluffed their way to freedom sidestepped tricks and traps won lawsuits or even gained their freedom by their cooking Riveting and surprising DeRamus captures the tumultuous lives of the humans in inhumane situations who were able to salvage their families and marriages and achieve freedom together against tremendous odds It takes a broader look at the various extraordinary ways that enslaved and dehumanized people achieved freedom and the means to a self-determined life Among these people are visionaries who not only survived against the odds but prospered building businesses owning land and other property Freedom by Any Means also features the return of many of the beloved figures from her previous book Forbidden Fruit including Lucy Nichols Al and Margaret Wood and Sylvia and Louis Stark This inspiring account steeped in rich historical research attests to the resolve of the human spirit and reveals how men and women were willing to risk it all to escape the slavery

Autopia Peter Wollen, Joe Kerr, 2002 The reach of the car today is almost universal and its effect on landscapes cityscapes cultures indeed on the very fabric of the modern world is profound Cars have brought benefits to individuals in terms of mobility and expanded horizons but the cost has been very high in terms of damage to the environment and the consumption of precious resources Despite the growing belief that a Faustian price is now being paid for the freedom cars have bestowed on us we are none the less manufacturing them in ever greater numbers Autopia is the first book to explore the culture of the motor car in the widest possible sense Featuring newly commissioned essays by writers critics historians artists and film makers as well as reprinting key texts it examines the effect of the car throughout the world including the USA Western and Eastern Europe Japan China Cuba India and South Africa In this book the car is treated neither as a technological fetish object nor as an instrument of danger Instead it is examined as a hugely important determinant of 20th century culture neither wholly good nor an unmitigated disaster and certainly endlessly fascinating Contributors include Michael Bracewell Ziauddin Sardar Al Rees Martin Pawley Donald Richie and Peter Hamilton Key texts by Marshall Berman Jane Jacobs Roland Barthes Marc Auge and others

Blood, Sweat, and Fear Jeremy Milloy, 2017-06-09 Going postal We think of the rogue employee who snaps But in Blood Sweat and Fear Jeremy Milloy demonstrates that workplace violence never occurs in isolation Using violence as a lens he provides fresh and original insights into the everyday workings of capitalism class conflict race and gender in the United States and Canada of the late twentieth century bringing historical perspective to contemporary debates about North American violence Milloy has produced the first full length historical exploration of the origins and effects of individual violence in the automotive industry His gripping analysis spans 1960 to 1980 when North American auto plants were routinely the sites of fights assaults and even murders and argues that violence resulted primarily from workplace conditions including on the job exploitation racial tension bureaucratization and hypermasculinity This explosive book reveals that workplace violence has been a constant aspect of class conflict and that our understanding needs to go deeper
