Thompson,Mica L. Thompson,2019-09-10 Sociological Wisdom is based on applying the basic principles of sociology to the world around us Sociologists study patterns of behavior in order to draw general conclusions about a social issue that transcend the effect of the problem or issue on any particular individual This is not to say that sociologists are unconcerned about individuals and their lives but sociology s emphasis is on the way individuals relate to others people s positions in society and the interdependence between society and individuals This text teaches students that it is more important than ever to study human behavior social groups and society utilizing critical thinking skills and careful analysis associated with sociological wisdom

American Foreign Policy and Political Ambition James Lee Ray,2013-08-20 In his eagerly awaited second edition of American Foreign Policy and Political Ambition James Ray revisits his deceptively simple premise that the highest priority of leaders is to stay in power Looking at how political ambition and domestic pressures impact foreign policymaking is the key to understanding how and why foreign policy decisions are made The text begins by

using this analytic approach to look at the history of foreign policymaking and then examines how various parties inside and outside government influence decision making In a unique third section the book takes a regional approach not only covering trends other books tend to miss but giving students the opportunity to think comprehensively about how issues intersect around the globe from human security and democratization to globalization and pollution Guided by input from adopters and reviewers Ray has thoroughly re organized the book and streamlined some coverage to better consolidate the historical institutional regional and topical chapters and focus the thematic lens of the book Ray has also brought the book fully up to date addressing the latest events in American foreign policy including the wars in Afghanistan and Iraq the killing of Bin Laden the WikiLeaks scandal and its aftermath the impact of social media on foreign policy and world affairs nuclear proliferation developments in U S Russian relations climate change and more
