Locke,Gary P. Latham,2013 This book concentrates on the last twenty years of research in the area of goal setting and performance at work The editors and contributors believe goals affect action and this volume will have a lineup of international contributors who look at the recent theories and implications in this area for IO psychologists and human resource management academics and graduate students Review of the 21st Century Truck Partnership, Second Report National Research Council,Division on Engineering and Physical Sciences,Board on Energy and Environmental Systems,Committee to Review the 21st Century Truck Partnership, Phase 2,2012-07-04 In July 2010 the National Research Council NRC appointed the Committee to Review the 21st Century Truck Partnership Phase 2 to conduct an independent review of the 21st Century Truck Partnership 21CTP The 21CTP is a cooperative research and development R D partnership including four federal agencies the U S Department of Energy DOE U S Department of Transportation DOT U S Department of Defense DOD and the U S Environmental Protection Agency EPA and 15 industrial partners The purpose of this Partnership is to reduce fuel consumption and emissions increase heavy duty vehicle safety and support research development and demonstration to initiate commercially viable products and systems This is the NRC s second report on the topic and it includes the committee s review of the Partnership as a whole its major areas of focus 21CTP s management and priority setting efficient operations and the new SuperTruck program *Cloud Computing and Security* Xingming Sun,Han-Chieh Chao,Xingang You,Elisa Bertino,2017-10-30 This two volume set LNCS 10602 and LNCS 10603 constitutes the thoroughly refereed post conference proceedings of the Third International Conference on Cloud Computing and Security ICCCS 2017 held in Nanjing China in June 2017 The 116 full papers and 11 short papers of these volumes were carefully reviewed and selected from 391 submissions The papers are organized in topical sections such as information hiding cloud computing IOT applications information security multimedia applications optimization and classification **Hybrid Artificial Intelligent Systems** Francisco Javier Martínez de Pisón,Rubén Urraca,Héctor Quintián,Emilio Corchado,2017-06-12 This volume constitutes the refereed proceedings of the 12th International Conference on Hybrid

Artificial Intelligent Systems HAIS 2017 held in La Rioja Spain in June 2017 The 60 full papers published in this volume were carefully reviewed and selected from 130 submissions They are organized in the following topical sections data mining knowledge discovery and big data bioinspired models and evolutionary computing learning algorithms visual analysis and advanced data processing techniques data mining applications and hybrid intelligent applications **Navigating**

Uncertainty Using Foresight Intelligence Bruce Garvey,Adam D. M. Svendsen,2024-10-25 This book brings together a diverse range of findings on current and emerging business concerns when the authors were developing a series of 12 working Analytic Research Consortium ARC White Papers It presents several differently configured scenarios drawing on cyber as an example the use and further optimization of estimative probabilistic language communicating analytical insights and other findings concerning un certainty to decision maker end users and mitigating risk It also evaluates in detail today s rapidly evolving Gen AI systems and technologies e g those underlying OpenAI s ChatGPT and Google s Bard Gemini This includes their respective value concerning scenario development and other business relevant methods tools and techniques e g Red Teaming The topics discussed are assessed using the multi methodologies of firstly Intelligence Engineering IE and secondly Strategic Options Analysis SOA The latter half of the book introduces an alternative scenario planning process including use of new computer software and AI tools In addition to Gen AI we identify that the emerging discipline of Causal AI may work better for foresight and scenario activities The book is a valuable read for a diverse readership from the public and private sectors spanning government the military law enforcement education industry commerce retail and enterprises of all sizes Also students at business schools and high level decision makers including politicians military commanders and C Suite leaders in various fields will benefit from it *Assembly Line Balancing under Uncertain Task Time and Demand*

Volatility Yuchen Li,2022-09-10 This book introduces several mathematical models in assembly line balancing based on stochastic programming and develops exact and heuristic methods to solve them An assembly line system is a manufacturing process in which parts are added in sequence from workstation to workstation until the final assembly is produced In an assembly line balancing problem tasks belonging to different product models are allocated to workstations according to their processing times and precedence relationships among tasks It incorporates two features uncertain task times and demand volatility separately and simultaneously into the conventional assembly line balancing model A real life case study related to the mask production during the COVID 19 pandemic is presented to illustrate the application of the proposed framework and methodology The book is intended for graduate students who are interested in combinatorial optimizations in manufacturing with uncertain input *Task Switching and Cognitive Control* James Grange,George Houghton,2014-04-25 One thing that separates human beings from the rest of the animal world is our ability to control behavior by referencing internal plans goals and rules This ability which is crucial to our success in a complex social environment depends on the purposeful generation of task sets states of mental readiness that allow each of us to engage with the world in a particular way or

achieve a particular aim This book reports the latest research regarding the activation maintenance and suppression of task sets Chapters from many of the world s leading researchers in task switching and cognitive control investigate key issues in the field from how we select the most relevant task when presented with distracting alternatives to how we maintain focus on a task eyes on the prize and switch to a new one when our goals or external circumstances change Chapters also explore the brain structures responsible for these abilities how they develop during childhood and whether they decline due to normal aging or neurological disorders Of interest especially to scholars and students of cognitive psychology the volume offers thorough multi disciplinary coverage of contemporary research and theories concerning this fundamental yet mysterious aspect of human brain function and behavior

Assessment of Hybrid-electric Transit Bus Technology Nigel N. Clark,2009 TCRP Report 132 Assessment of Hybrid Electric Transit Bus Technology provides decisionmaking guidelines coupled with a comprehensive life cycle cost model LCCM to assist transit managers in evaluating selecting and implementing hybrid electric technology options for transit buses The guidelines and the accompanying LCC model resulted from the gathering of site data coupled with a comprehensive review of both capital requirements and operating costs of hybrid electric buses in comparison with those powered by traditional diesel engines Information grew out of a sound engineering based independent technical evaluation of the costs performance and reliability of hybrid electric transit bus technology in actual service The LCC model contained on the accompanying CD ROM CRP CD 71 allows the user to compare the total life cycle costs across several cost categories for up to 6 different purchase scenarios These scenarios let the user decide when the purchases will be made the types of buses to be compared the work load of the buses and many other cost inputs in determining benefits and costs associated with alternative purchasing strategies The Training Design Manual Tony Bray,2009-07-03 This workbook and the accompanying online resources provide a one stop reference manual to designing and delivering a successful training course Written in a practical and user friendly style The Training Design Manual provides both theory and practical exercises guiding the reader through the total design process from start to finish Theory and concepts are followed by practical application and a blend of text and graphics appeals to a wide range of learning styles Accompanying online material includes design templates which the reader can use to record ideas as they progress through the book so that by the end they will have a complete course design Online supporting resources include dozens of activities examples and templates
