S. Kesavan, 2015

InfoWorld, 1998-12-07 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **Constraint Solving and Language Processing** Henning Christiansen, Peter Rossen Skadhauge, Jørgen Villadsen, 2005-05-30 This volume contains selected and thoroughly revised papers plus contributions from invited speakers presented at the First International Workshop on Constraint Solving and Language Processing held in Roskilde Denmark September 1-3 2004 Constraint Programming and Constraint Solving in particular Constraint Logic Programming appear to be a very promising platform perhaps the most promising present platform for bringing forward the state of the art in natural language processing this due to the naturalness in specification and the direct relation to efficient implementation Language in the present context may refer to written and spoken language formal and semiformal language and even general input data to multimodal and pervasive systems which can be handled in very much the same ways using constraint programming The notion of constraints with slightly differing meanings apply in the characterization of linguistic and cognitive phenomena in formalized linguistic models as well as in implementation oriented

frameworks Programming techniques for constraint solving have been and still are in a period with rapid development of new efficient methods and paradigms from which language processing can profit A common metaphor for human language processing is one big constraintsolving process in which the different specialised linguistic and cognitive phases take place in parallel and with mutual cooperation which fits quite well with current constraint programming paradigms **Computerworld** ,2003-08-25
