Target Annual Report 2005:

International Monetary Fund Annual Report 2005 International Monetary Fund, 2005-09-16 The Annual Report 2005 to the Board of Governors reviews the IMF's activities and policies during the financial year May 1 2004 through April 30 2005 The main sections cover country global and regional surveillance strengthening surveillance and crisis prevention IMF program support and crisis resolution the Fund's role in low income countries financial operations and policies technical assistance and training governance and management of the IMF and cooperation communication and outreach Besides the full financial statements for the year appendixes cover international reserves financial operations and transactions principal policy decisions relations with other international organizations press communiqués of advisory committees Executive Directors and their voting power and changes in the Executive Board's membership **Annual Report** European Central Bank, 2007 Energy and Water Development Appropriations for 2010, Part 4, 111-1 Hearings, *, 2009 **Annual Report** Caritas Bangladesh, 2004 **Human Development Report 2005** United Nations Development Programme, 2005 The Human Development Report 2005 examines the scale of the challenge facing the world at the start of the ten year countdown to the 2015 Millennium Development Goals mark The Report focuses on three pillars of cooperation each of which is in urgent need of renovation The first pillar is international aid the Millennium Development Goals MDGs project has been compromised by chronic and sustained under financing allied to problems in aid quality The second pillar is international trade Under the right conditions trade can act as a powerful catalyst for human development The development round of World Trade Organization talks launched in 2001 provided northern governments with an opportunity to create those conditions The third pillar is that of security violent conflict is a source of systematic human rights violation and a barrier to progress towards the MDGs that must be overcome Energy and Water Development Appropriations for 2008: 2008 Congressional budget justifications United States. Congress. House. Committee on Appropriations. Subcommittee on Energy and Water Development, 2007 **Energy and Water Development Appropriations for 2009** United States. Congress. House. Committee on Appropriations. Subcommittee on Energy and Water Development, 2008 **Energy and Water Development Appropriations for 2008** United States. Congress. House. Committee on Appropriations. Subcommittee on Energy and Water Development, 2007 **Northern Ireland Policing Board best value performance plan for 2006-07** Great Britain: National Audit Office, 2007-03-28 The Police Northern Ireland Act 2000 requires the Northern Ireland Policing Board to make arrangements to secure continuous improvement in the way in which their functions and those of the Chief Constable of the Police Service of Northern Ireland PSNI are exercised with particular focus on economy efficiency and effectiveness This is the fourth NAO report on the audit of the current best value performance plan The Policing Board and PSNI have made significant progress in implementing the recommendations of past inspections by NAO and HM Inspector of Constabulary The proposed performance indicators and standards for 2006 07 are reasonable but could be improved Some

previous indicators have been dropped and an explanation would help transparency The methodology used to select the Best Value Reviews is thorough but again the decision making process is not clear The report also recommends improvements in the reporting of performance against standards particularly where standards have not been achieved *Annual report* Australian Fisheries Management Authority, **The management of staff sickness absence in the Department for Transport and its agencies** Great Britain: National Audit Office, 2007-06-08 Ministers have challenged all Departments to reduce their 2004 sickness rates by 30% by 2010 This report looks at the sickness levels in the Department of Transport and its seven executive agencies which average 10.4 days sickness for each full time employee compared to a Civil Service average of 9.8 days However the performance is varied The central Department and four agencies have sickness levels at or below comparable organisations but three agencies have higher levels and the Driving Standards Agency and the Driver and Vehicle Licensing Agency have absence rates of 13.1 and 14 days respectively If there is going to be a significant change there needs to be action at the corporate and individual business level Corporately there needs to be targets for each part of the Department tailored to circumstances quality standards for recording sickness with the provision of management information a consistent framework for evaluating initiatives and sharing good practice At a business level more could be done to ensure that line managers were aware of their responsibilities and improve intervention in long term cases **The 2006 pre-budget report** Great Britain: Parliament: House of Commons: Treasury Committee, 2007-01-25 This report from the Treasury Committee examines the recent economic analysis and assessment of the UK economy as outlined in the 2006 pre budget report and sets out a number of conclusions and recommendations including the Committee welcomes the recent rise in the growth rate of business investment but with the caveat that the downside risk as highlighted in a previous weakness for business investment remains unexplained that several risks exist around the consumption growth forecast including the potential of house prices to fall and the increase of personal insolvency the employment rate rise is commended but a lack of migration statistics in relation to the labour market means an overall assessment is not possible although an improved forecast for economic growth in 2006 the Treasury has not forecast an improvement in the fiscal position the Government appears to be on track to meet the golden rule in the current economic cycle but will start the next economic cycle with its current budget in deficit the Committee recommends also that the Treasury in future Budgets and Pre Budget reports provide a fuller explanation of its current forecast of the start and end dates of the current economic cycle also future Budget and Pre Budget reports should provide a breakdown of reported efficiency gains by department and further to enhance transparency and enable effective scrutiny the Treasury should require departments in their departmental annual reports and Autumn Performance reports in 2007 and in later years to provide consistent and comprehensive information on progress against efficiency targets the Committee expressed dissatisfaction at the lateness and vagueness of information in relation to expenditure on education but approved the early announcement of capital spending plans for education up to

2010 11 the Committee though does welcome the Government's decision to commission and publish a range of reviews informing future economic policy including tax policy the Pre Budget report is seen as an effective instrument of fiscal consultation but this could be enhanced if Parliament and the public were given greater notice of the date of the report perhaps 4 weeks before the statement is due to be made where tax changes carry significant risk of forestalling activity or distorting market behaviour such as the unusual timing and implementation of the increases in Air Passenger Duty the Committee feels as a general rule that those increases should not come into force until the House of Commons has had an opportunity to come to a formal decision on such an increase

The Potential of England's Rural Economy

Great Britain. Parliament. House of Commons. Environment, Food and Rural Affairs Committee, 2008 This is the 11th report from the Environment Food and Rural Affairs Committee HCP 544 I session 2007 08 ISBN 9780215524201 and focuses on the potential of England's rural economy A report from the Rural Advocate to the Prime Minister in June 2008 <http://www.ruralcommunities.gov.uk/files/CRC74.pdf> estimated the untapped potential from rural business as between 236 billion and 347 billion per annum The Department for Environment Food and Rural Affairs DEFRA has not commented on these figures but the Committee believes that if the figures are accurate tackling the factors that inhibit growth of businesses in rural areas could make a substantial difference to the performance of England's economy as a whole The Committee states that DEFRA should produce its own estimate and that the Department's present approach to the rural economy will not deliver the tailored solutions that rural business needs DEFRA's new Departmental Strategic Objective DSO does not convince the Committee that this will identify the factors inhibiting economic growth The DSO is split into two intermediate outcomes i that the needs of rural people are met through mainstream policy ii by supporting economic growth in rural areas with the lowest levels of performance Both these outcomes are directed towards the objective of developing Strong Rural Communities For the Committee DEFRA should focus on achieving economic growth across rural areas as a whole and not exclusively concentrate on areas of the lowest performance and that the indicators obtained from the DSOs are incomplete because they do not include transport communications planning and further education Also there is no distinction between different types and sizes of rural community The Committee further states that DEFRA needs to consult with the Commission for Rural Communities on whether the indicators represent the best way of identifying problems The delivery of the DSOs will also depend heavily on other Departments Regional Development Agencies and local authorities and DEFRA needs to produce a delivery plan setting out what assistance it needs from these bodies
