

1.2 The TUJ50M Series Lathes

The TUJ series of lathes represent a long history of precision tool design and fabrication. They are built at the TARNOW Machine Works in Poland, where the tradition of craftsmanship is passed down from generation to generation. The TUJ lathes combine this old-fashioned commitment to fine workmanship with the most modern technology and engineering.

The result is a machine tool which is unsurpassed for its precision and durability. A few examples of how this commitment to quality shows up in the TUJ-50 lathes:
