Ho, 2009-02-27 TASER Conducted Electrical Weapons are rapidly replacing the club for law enforcement control of violent subjects within many countries around the globe A TASER CEW is a hand held device that delivers a 400 volt pulse with a duration tuned to control the skeletal muscles without affecting the heart at a distance of up to 65 meters over tiny wires If necessary it begins with an arcing voltage of 50 000 V to penetrate thick clothing the 50 000 V is never delivered to the body itself Due to the widespread usage of these devices and the widespread misconceptions surrounding their operation this book will have significant utility This volume is written for cardiologists emergency physicians pathologists law enforcement management corrections personnel and attorneys **Country Reports on Human Rights Practices**, 2009 Proactive School

Williams, 2008 After reviewing the available evidence from this extensive case study the author concludes that these conducted energy weapons are excluded as the cause of death in 182 of the 212 cases In only two cases did the evidence tend to confirm the weapon was either a cause of death or a significant contributing factor While arguing that the TASER electronic control devices are safe less lethal weapons the author also cautions that they are not completely effective

Legal Implications of Taser Use and Prone Position on Excited Delirium Subjects Vidisha Barua Worley, 2025-11-17 Using case law this book explores the controversial issues associated with excited or hyperactive delirium with severe agitation including the appropriate use of tasers and the inhumane practice of applying bodyweight pressure on subjects by placing them face down in the prone position depriving them of the ability to breathe This study alerts society to the urgent need to treat excited delirium as a medical emergency rather than a crime scene where a multi agency collaborative effort can de escalate and manage these hyperthermic and paranoid individuals allowing them an opportunity to live It also argues that the reaction of some U S states that are prohibiting the term excited delirium and preventing officers from getting adequately trained can have devastating results by increasing municipal liability for failure to train It also fails those individuals undergoing serious mental health crises by way of excited delirium or seizures who need to be served and protected as per the social contract theory Legal Implications of Taser Use and Prone Position on Excited Delirium Subjects will be of interest

defunding the police is the only way to support a model of security and protection that increases public safety overall Over the last few years in response to videos demonstrating the brutal and often deadly tactics of law enforcement officers calls to defund the police have increasingly rung out across the world But this is not a trendy new movement Black activists have been sounding the alarm on the dangers of policing for decades Time and again history has watched as officers respond to minor calls with escalation wrongful arrests and even murder Yet policymakers continue to fund and endorse reform programs that have proven ineffective at curbing these actions Why Because most of what we know about policing is wrong In Defund longtime activist Sandy Hudson examines the origins of commonly held ideas about police and safety to show how police related social policies are based more on a sensationalized idea of safety than on outcomes and data She demonstrates the destructive effects of policing on scores of people arguing that investment in community resources and infrastructure rather than law enforcement is the key to making us safer Clear eyed and hopeful yet incisive and pragmatic Defund paves a clear path forward and demonstrates that a future without police is not only entirely possible but necessary Evaluation of the New York City Police Department Firearm Training and Firearm-discharge Review Process Bernard Rostker,2008 In January 2007 New York City Police Commissioner Raymond W Kelly asked the RAND Corporation to examine the quality and completeness of the New York City Police Department s firearm training program and identify potential improvements in it and in the police department s firearm discharge review process This monograph reports the observations findings and recommendations of that study **Macropsychology** Malcolm MacLachlan,Joanne McVeigh,2021-03-29 This volume argues for the development of a macro perspective within psychology that more effectively incorporates social structures systems policies and institutions The book emphasizes how social structures and systems can ultimately promote or erode psychological wellbeing Macropsychology is concerned with understanding up or how we can influence the settings and conditions of the society in which we live Psychology has traditionally been more interested in understanding down that is with the behaviour of individuals and groups in inter psychic and intra psychic and in neurological and biological processes This volume argues that psychology can more effectively contribute at the macro or societal level by addressing grand challenges and global goals using big data and intervening at the population level Bringing together social organizational cultural and health psychology research the book demonstrates a broad range of areas benefitting from a macropsychology perspective particularly areas integral to the realization of the Sustainable Development Goals SDGs Contributors address the value of macropsychological perspectives in addressing sub topics such as Mental health Personality traits and social structure Disability rights Food systems Humanitarian work psychology Macropsychology A Population Science for Sustainable Development Goals aims to recognise and give impetus to a neglected perspective within psychology and to inspire a paradigm widening within the field of psychology facilitating greater involvement with social justice and human rights **Congressional Record** United States.
