**Matisse's Poets** Kathryn Brown, 2017-09-21 Throughout his career Henri Matisse used imagery as a means of engaging critically with poetry and prose by a diverse range of authors Kathryn Brown offers a groundbreaking account of Matisse's position in the literary cross currents of 20th century France and explores ways in which reading influenced the artist's work in a range of media This study argues that the *livre d'artiste* became the privileged means by which Matisse enfolded literature into his own idiom and demonstrated the centrality of his aesthetic to modernist debates about authorship and creativity By tracing the compositional and interpretive choices that Matisse made as a painter print maker and reader in the field of book production this study offers a new theoretical account of visual art's capacity to function as a form of literary criticism and extends debates about the gendering of 20th century bibliophilia Brown also demonstrates the importance of Matisse's self placement in relation to the French literary canon in the charged political climate of the Second World War and its aftermath Through a combination of archival resources art history and literary criticism this study offers a new

Covering the entire history of art from Paleolithic cave painting to contemporary art, it provides foundational guidance on the basic character and techniques of the different art forms, on the various genres of painting in the Western tradition and on the techniques of sculpture as they have been practiced over several millennia and across a wide range of cultures. Throughout the book, Harrison discusses the relative priorities of aesthetic appreciation and historical inquiry and the importance of combining the two approaches. Written in a style that is at once graceful, engaging and personal as well as analytical and exact, this illuminating book offers an impassioned and timely defense of the importance and value of the firsthand encounter with works of art, whether in museums or in their original locations.
