Richard Francis Burton

Tattoo Thief English Edition:

Stigma Imogen Tyler, 2020-04-15 Stigma is a corrosive social force by which individuals and communities throughout history have been systematically dehumanised scapegoated and oppressed From the literal stigmatizing tattooing of criminals in ancient Greece to modern day discrimination against Muslims refugees and the undeserving poor stigma has long been a means of securing the interests of powerful elites In this radical reconceptualisation Tyler precisely and passionately outlines the political function of stigma as an instrument of state coercion Through an original social and economic reframing of the history of stigma Tyler reveals stigma as a political practice illuminating previously forgotten histories of resistance against stigmatization boldly arguing that these histories provide invaluable insights for understanding the rise of authoritarian forms of government today
