Composition and the Rhetoric of Science Michael J Zerbe, 2007-03-21 Composition and the Rhetoric of Science Engaging the Dominant Discourse calls for instructors of first year writing courses to employ primary scientific discourse in their teaching and for rhetoricians of science to think about teaching scientific discourse as a literacy skill Author Michael J Zerbe argues that inclusion of scientific discourse is crucial because of this rhetoric s status as the dominant discourse in western culture The volume draws on Lyotard i ek Foucault and Althusser to argue that while important theorists such as these have recognized the dominance of scientific discourse rhetoric and composition has not to its detriment The text illustrates that scientific discourse remains a miniscule part of the enterprise of rhetoric and composition and thus the field is not fulfilling its mission of providing students with the writing and reading skills they need to live and work in a science and technology dependent society Zerbe provides an analysis of science popularizations and demonstrates how these works can be used to contextualize primary scientific research He also presents three pedagogical scenarios each built around a carefully chosen accessible example of scientific discourse that demonstrate how articles from scientific journals can be used in writing courses Only by gaining a meaningful fluency in this discourse one that is not offered by science textbooks can a more sophisticated scientific literacy be assured Composition and the Rhetoric of Science effectively explores the relatively limited amount of work done in rhetoric and composition on scientific discourse and questions this state of affairs Zerbe presents for the first time cultural studies and science literacy as gateways for incorporating scientific discourse into first year writing courses

All Creation is Groaning Carol J. Dempsey, Russell A. Butkus, 2015-03-06 This multi academic perspective on contemporary environmental issues reminds us of our oneness with the natural world and what that calls us to as moral creatures Fashioned as a series of stories based on the model of biblical narrative these seemingly multivalent voices and perspectives are joined together with biblical stories references and theological reflection to create in All Creation Is Groaning a seamless story that is both provocative and revelatory All Creation Is Groaning provides a clear Vision of living life in a sacred universe This Vision is linked to the biblical Vision of

justice and righteousness for all of creation and humankind's responsibility to hasten the Vision through a call to ethical practice. Critical and hermeneutical, this book reflects an interdisciplinary approach so as to build bridges of understanding between the Bible and contemporary disciplines. Chapters are: Stories from the Heart, New Ways of Knowing and Being Known, An Islamic Perspective on the Environment, Christian Values, Technology and the Environment, Crisis Feeding the Hungry and Protecting the Environment, Mental Cartography in a Time of Environmental Crisis, Toward an Understanding of International Geopolitics and the Environment, Sustainability: An Eco-Theological Analysis, The Stewardship of Natural and Human Resources, Development of Environmental Responsibility in Children, An Ecological View of Elders and Their Families, Needs for the Twenty-First Century, Symphonies of Nature, Creation and Re-creation, A Sense of Place and Hope Amidst Crisis, A Prophetic Vision of Cosmic Redemption.

Brief History of Social Problems Frank J. McVeigh, Loreen Therese Wolfer, 2004. In this book, Frank McVeigh and Loreen Wolfer take an historical approach to examine the causes and conflicts behind ten major social problems that have existed for nearly 230 years. Using a critical thinking perspective of the history, sociology, politics, and economics of the period, the authors analyze social problems as a series of conflicts between those with power and those who were at one time virtually powerless. Embedded in this analysis is a discussion of how the shift from a *Gemeinschaft* to *Gesellschaft* society has influenced how we address these problems. Using these themes, McVeigh and Wolfer provide thought-provoking insight into the ways individuals, groups, and social institutions change over time, gaining or losing power. The book contains a preface by Arthur Shostak, Drexel University.

Proportionate Share Impact Fees and Development Mitigation Arthur C. Nelson, James C. Nicholas, Julian Conrad Juergensmeyer, Clancy Mullen, 2022-11-30. After decades of evolving practice often tested in court, development impact fees have become institutionalized in the American planning and local government finance systems. But they remain contentious, especially as they continue to evolve. This book is the third in a series of impact fee guidebooks for practitioners following *A Practitioner's Guide to Development Impact Fees* and *Impact Fees Proportionate Share Development Fees*. *Proportionate Share Impact Fees and Development Mitigation* is the culmination of the authors' careers devoted to pioneering applications of the dual rational nexus test. That test requires 1) establishing the rational nexus between the need for infrastructure broadly defined to mitigate the impacts of development and 2) ensuring that development mitigating its infrastructure impacts benefits proportionately. The book elevates professional practice in two ways. First, it shows how the rational nexus test can be applied to all forms of development infrastructure impact mitigation. Second, it establishes the link between professional ethics and equity as applied to proportionate share impact fees and development mitigation. The book is divided into four parts: the first reviewing policy and legal foundations, the second detailing the planning calculation and implementation requirements, the third exploring economic, ethical, and equity implications, and the fourth presenting state-of-the-art case studies. *Proportionate Share Impact Fees and Development Mitigation* sets new standards for professional
