The Power of Story Joan Wink Ph.D., 2017-11-07 Through this book readers will discover that stories can move the human heart and head in ways that research cannot Stories bring together readers writers librarians teachers students and families in the libraries of today and will continue to do so tomorrow Written for all those lovers of literacy this book links libraries and literacies through the power of stories The book is not filled with data in the form of pie charts graphs and tables Rather the truth of the research is grounded in authentic stories that reflect not only the interpretation of data but also the transformative nature of literacies and libraries The author s primary goal is that readers will come to value and use storytelling in their own professional and personal lives to explain and expand on complex concepts and to make information more accessible for all The book begins by presenting anecdotes and the author s personal story to lay the foundation for what literacies are and what literacy is not An activity Spiral of Literacy allows readers to reflect on their own literacies Chapters that follow each begin with a story that sets the theoretical foundation Each chapter concludes with an action section that demonstrates how to turn theory to practice whether you are in a library a classroom or at home A final chapter envisions what libraries might look like in 10 years through interviews with librarians teachers and others interested in literacy

The Death and Resurrection of a Coherent Literature Curriculum Sandra Stotsky, 2012-06-14 This book is addressed to teachers who know that the secondary literature curriculum in our public schools is in shambles Unless experienced and well read English teachers can develop coherent and increasingly demanding literature curricula in their schools average high school students will remain at about the fifth or sixth grade reading level where they now are to judge from several independent sources This book seeks to challenge education policy makers test developers and educators who discourage the assignment of

appropriately difficult works to high school students and make construction of a coherent literature curriculum impossible It first traces the history of the literature curriculum in our middle schools and high schools and shows how it has been diminished and distorted in the past half century It then offers examples of coherent literature curricula and spells out the cognitive principles upon which coherence is based Finally it suggests what English teachers in our public schools could do to develop a literature curriculum that gives all their students an adequate basis for participation in an English speaking civic culture
